PRINCE'S
Select Descriptive Catalogue

OF THE

UNRIVALED COLLECTION

OF

FRUIT & ORNAMENTAL

TREES AND SHRUBS,

VINES, CREEPERS, PÆONIES, &c.,

CULTIVATED AT THE

Linnæan Botanic Garden & Nurseries

FLUSHING, Near New York.

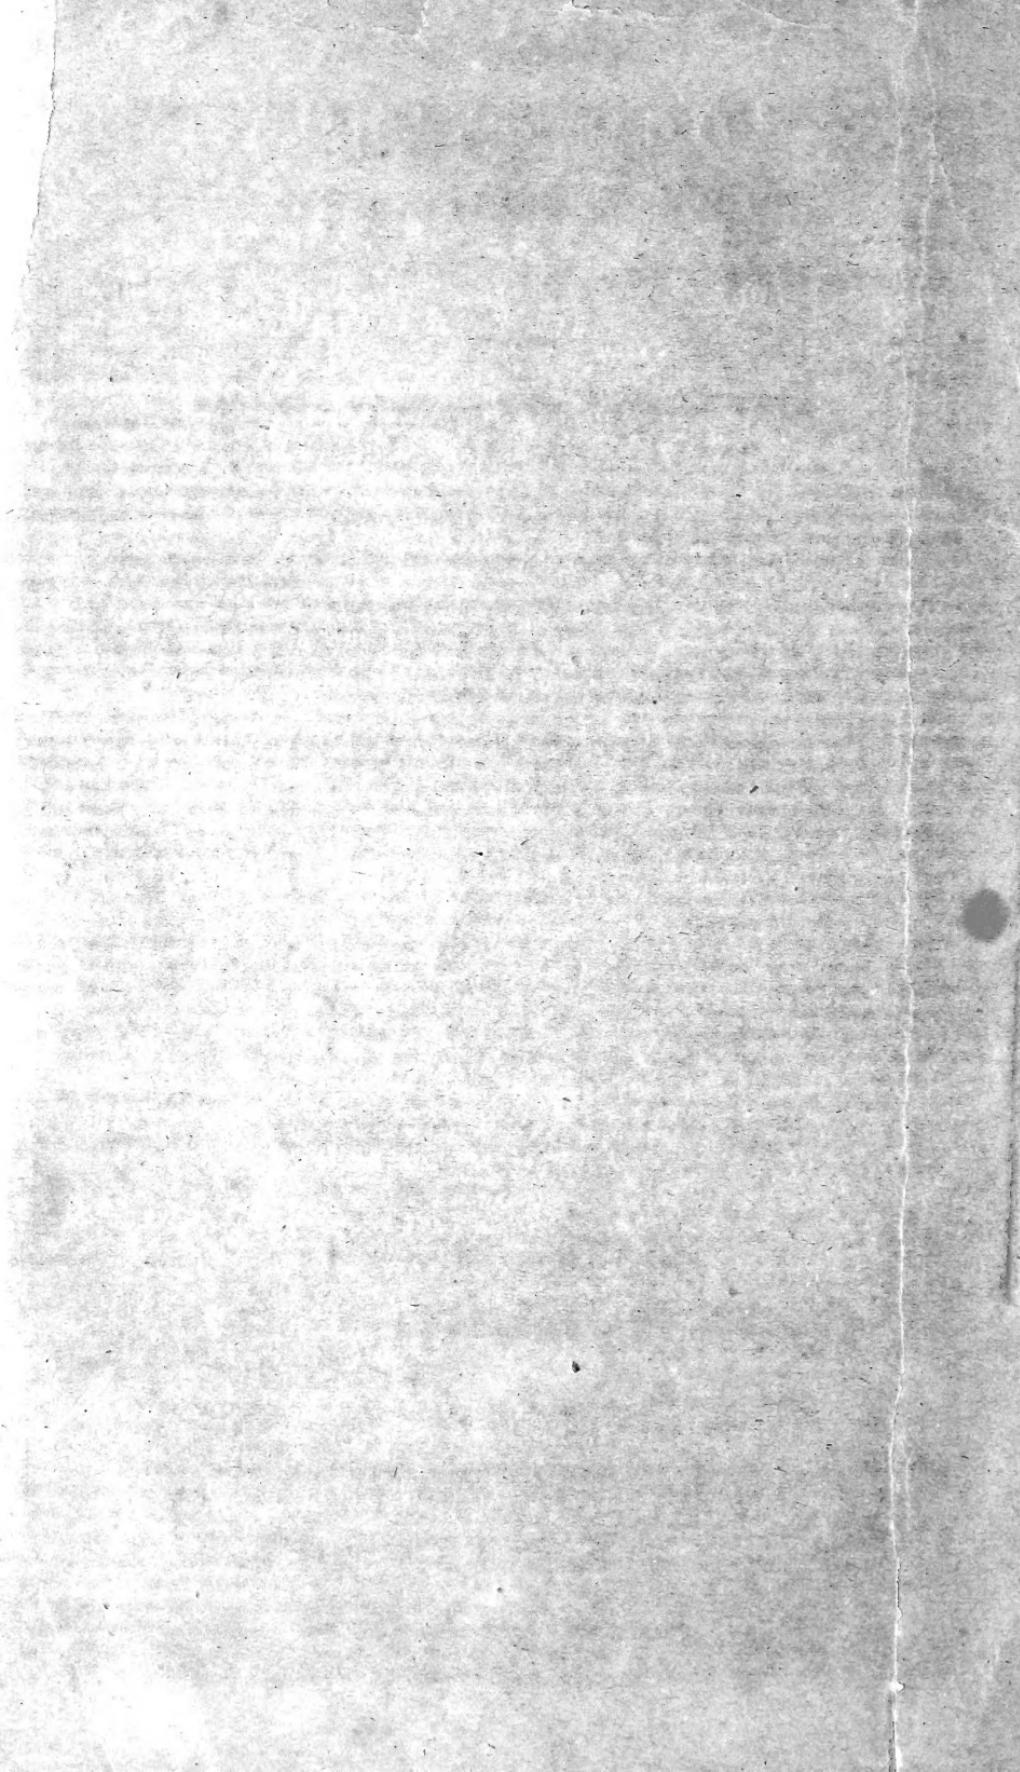

WM. R. PRINCE & CO.

"A wood coeval with himself he sees,
And loves his own cotemporary trees."

N. B.—Orders should be addressed us at Flushing, and sent per Mail.

PRINCE'S CATALOGUES, which are sent to purveyors of Trees, and to applicants who enclose stamps.—No. 1, Descriptive Catalogue of Fruit and Ornamental Trees, Shrubs, and Plants.—No. 2, Roses, Camellias, Chamaethamnus, Phlox, Iris, Double Sweet Williams, and all other Herbaceous Flowering Plants, &c.—No. 3, Extra large Fruit Trees, Evergreens, and other Ornamental Trees and Shrubs, suitable for immediate fruit-bearing and embellishment.—No. 4, Wholesale Catalogue for Nurseries and Dealers, comprising Trees, Shrubs, Roses, Plants, Bulbous Flower Roots, Stocks for Engraving, Peonies, Dahlias, &c.—No. 5, Wholesale Catalogue of Vegetable, Agricultural, and Flower Seeds, and Tree and Shrub Seeds, &c.—No. 6, Descriptive Catalogue of our Unrivaled Collection of 140 Select Varieties of Strawberries, with a REJECTED LIST, and Directions for Culture.—No. 7, Rare American Trees, Plants, and Seeds, suitable for sending to Europe.—No. 9, Catalogue of Bulbous Flowers of every Class, together with Tree and Herbaceous Peonies, Dahlias, and other Rare Flowering Plants.—No. 11, Directions for Culture of the Chinese Potato or *DIOSCOREA BATATAS*.—No. 13, Catalogue of Greenhouse Plants.—No. 14, Descriptive Catalogue of Native and Foreign Grapes.—No. 16, General Price List of Fruit Trees, Grapes, Raspberries, Blackberries, Gooseberries, Currants, and other small Fruits; Rhubarb and other Esculents, with Reduced Prices.—Books.—Prince's Treatise on the Vine, with Descriptions of Native and Foreign Grapes, and Vineyard Culture, (new Edition in preparation.) \$1. Treatise on Fruits, containing Descriptions of 800 Varieties of Fruits, \$1.50. Prince's Manual of Roses, comprising Descriptions of 1,000 Varieties, new ed., 75cts.

FORTY-FIFTH EDITION.

WM. R. PRINCE & CO.

FLUSHING, NEAR NEW YORK.

ANNOUNCEMENT AND GENERAL REMARKS.

The Senior Proprietor, Wm. R. Prince, having devoted more than half a century to Pomological and Horticultural pursuits, and desiring now to withdraw from all active business, has transferred the control of the Nurseries to his son, *William Prince*, who, with his associates, will conduct the establishment in its future operations. W. R. P. will, however, give his general supervision to some of the most prominent objects.

We need scarcely to announce that our Catalogues are not made up from books only, but that we possess in quantity, every article comprised in them. Many highly estimable *New Varieties* have been added to the present Catalogue, and we shall furnish descriptions of the New Fruits for the next edition of "*Downing's Fruit Trees*;" and we refer to his present and future editions for the identity of the Fruits in our collection. An additional plot of 40 acres of excellent Farm land, very favorably situated, has been added to the Nurseries, on which are now growing several hundred thousand trees, in addition to our previous extensive stock.

This and the other Nurseries are all on lands that may be termed *new soil* (in regard to Tree culture), no trees having been previously grown on them; as the building innovations have pressed upon our path so rapidly that the lands formerly occupied by our Nurseries are now populous streets, studded with dwellings. The natural strength and fertility of the soil of this locality is such, that it insures a most healthy and vigorous growth to the trees, which seem to become hardened and confirmed as they progress, and is devoid of that rank, stimulated, and unnatural exuberance which trees so generally exhibit when reared on lands that have never been subjected to previous culture. The Trees thus cultivated, after making at first a rapid development, are so sensitive to cold, that the winter easily affects them, and they gradually pine away till they become feeble and unproductive.

The climate of *Long Island* being subject at all times to the boisterous winds of the Ocean and the Sound, seems to be particularly favorable to perfecting the hardihood of Trees. The vacillations of alternate cold and mild periods during the winter, accompanied by the frequent freezings and thawings to which trees are here subject throughout all stages, prepares them for the endurance of the utmost degree of cold and rigor incident to the most northern latitude; it being found that trees, like men, become much more hardened in a changeable climate than in one regularly cold where the constitution is not subjected to trials.

It is doubtless from this cause that the Long Island Trees with which New England has been generally supplied, and also those which have been sent to the coolest regions of the West, have been found to better withstand the severest winters, than those which have been obtained from other localities. Indeed, it can be readily realized that trees so robust and hardy, and yet so vigorous, must possess a great superiority over those grown in localities where the mercury sinks each year to 10° and 20° below zero during a very prolonged winter, thus retaining the trees in a frozen, torpid and death-like state for many months, freezing and bursting the inner vessels, affecting the sap, and probably causing sap-blight, and weakening them to such a degree that they can never regain their original health and strength. Some lessons may be derived from the fatal experience of the three past winters at the West, to which may be superadded the inconsiderate use by many nurseries of unsuitable stocks for budding and grafting, and especially of the tender Mazzard stock for Cherries, instead of the hardy Mahaleb, the latter alone being suited to the North and West. No Trees grown here are ever winter-killed; and the pear-blight, so destructive in the western part of this State, is unknown here.

Our large General Catalogues, which have been distributed throughout the Union, comprise every estimable variety of Fruit ripening throughout the year, and especially such as have been recommended by the different Pomological Conventions, and embrace Trees of the usual sizes for planting in Orchards and Gardens. All are in the most healthy and vigorous state, and will be supplied at the rates named in the present Catalogue; and it may be taken as a rule that we will at all times sell as low, and many articles lower than they can be obtained elsewhere, of equal size and quality. The Extra-Large sized Trees, which are in a bearing state, have required many years to bring them to their present size, and are such as can seldom be obtained elsewhere, and are worthy of the special attention of those who desire *Fruit Trees* for immediate bearing, whereby many years are gained in the planting of Orchards and Gardens. The Extra-Large sized Ornamental Trees and Shrubbery, including the Large sized Evergreens, are worthy the particular attention of those who desire to promptly embellish their Lawns, Avenues, and other Grounds, and many of them are

especially adapted to Cemeteries. None of the Apples and Pears, or other Fruit Trees, are grafted on pieces of roots, as has been inconsiderately practiced elsewhere.

Our collection of estimable Fruits of every class, and of Ornamental Trees and Shrubs, including Evergreens, is more general and extensive than any other in our country. We do not here, as is customary and necessary in the western Nurseries of our State, cover three-fourths of our grounds with Apple Trees and other common Fruits; but in accordance with the general demands of our Correspondents, we embrace an assortment very enlarged and comprehensive. It will consequently be seen that of Ornamental Trees and Flowering Shrubs, Evergreens, Roses, Climbers, Bulbous Flowers, and Herbaceous Flowering Plants of every Class, there is no comparison between the collections in the Flushing Nurseries and some distant ones, which have been unduly puffed for their extent in acres. Distant purchasers, and especially those located in the new and rising States of the North and West, should not allow themselves to be duped by gross misrepresentations emanating from interested sources, but should make it an indispensable duty to visit and inspect the Long Island Nurseries to their perfect satisfaction. We append hereto (on the cover) a list of the various Catalogues, which comprise all the departments of our Nurseries, each with prices annexed.

In consequence of the railroad which connects Flushing with the city of New York being laid 2,000 feet through one of our largest Nurseries of fifty acres, we will supply Nurseries and others requiring large numbers of Trees, at reduced rates, and on the most liberal terms, as that portion of our lands is required for building lots. We especially suggest to younger Nurseries the importance to them of securing genuine warranted Fruit Trees of our superior varieties, many of which are not obtainable elsewhere.

All trees, &c., are labeled and packed in a superior manner, in matted bales or boxes, so that it is scarcely possible that any can be injured; and we charge for the packing barely the actual cost. We feel assured that we save to purchasers more than ten per cent. by our superior packing, by which even the smallest articles go safely. The numbers on the trees and plants refer to the invoice and not to the Catalogues. We ship the packages, or send them by Railroad, by the Transportation Lines, or Express Lines, precisely as ordered; and we send the receipt for the packages with the invoice to the purchaser, and there is consequently the best security for their delivery. After being thus expedited by us, they are at the risk of the purchaser, and the forwarders alone are to be held responsible therefor. Remittances may be made by Check or Draft; but if Bank Notes are sent, they should be forwarded through the United States Express, American Express, or Adams' Express Co's., and the Agent's receipt therefor be sent to us. New York or Eastern Bank Notes are best, as there is a discount on Western notes.

Orders for Trees, &c.—Orders should be sent direct to us. It is indispensable that every order be plainly and regularly made out, naming the edition of the Catalogue selected from, and also that plain directions stating how the packages are to be marked and forwarded, should immediately follow the order, and *that these be entirely distinct from the letter*. It is also necessary to state in the orders for Fruit trees, whether Standards, Pyramids, or Dwarfs are wanted, and on what stock each kind is preferred. When any variation is allowed as to the precise kinds, by substituting others equally good or better, or when the selection of all or part of the varieties are left to us, we will exercise our judgment for the interest of the purchaser; and we cultivate none but the choicest varieties. If an error of any kind should occur, we desire to be promptly notified, that it may be rectified at once.

Specimen Trees.—Whenever specimen Trees are ordered by any Nurseryman or other person, they will be charged at the retail prices without discount, the extra time required to make such selections being important to us, and their accuracy of vital importance to the purchaser. As our desire is to sell Trees in quantities, we deem it a favor to supply specimen trees, and shall expect the purchaser to order at least two of each variety desired. In fact, many of the New and Rare Varieties are worth five times the price demanded, they having been obtained with great trouble and expense. We have never employed any Traveling Agents, and caution the public against some scoundrels who, having by some means obtained our Catalogues, profess to represent the Flushing Nurseries, and have repeatedly stated they were acting for us. If we should conclude to employ any Agents, their names will be announced in the Horticulturist; but we much prefer to do our own business by direct correspondence.

N. B. It seems almost superfluous to remark, that all the Trees and Shrubs in this Catalogue not stated to be tender, are hardy.

 Steamers direct, and the Railroad Line, leave Fulton Market wharf, New York, hourly, for Flushing.

APPLES—PYRUS MALUS.

Standard Trees of usual size for Orchards, 25 cents.
 “ of larger size, 4 to 5 years grafted, 37 cts.
 “ very large, 6 and 7 years grafted, 50 cts.

N. B.—The two last-named sizes are such as are seldom obtainable from Nurseries.

Dwarf Trees, 25 to 37 cts., and extra size and age, 50 cts.

Above 400 varieties are cultivated, comprising every estimable variety described by Thomas, Downing, Manning, Barry, Kenrick, and Ives, and by the London Horticultural Society. The following comprise a selection of the most estimable, and we exclude a large number of worthless varieties which are comprised in many Catalogues.

Class 1.—SUMMER VARIETIES.

1 Benoni, <i>very fine.</i>	11 Golden Sweet.	21 Summer Hagloe.
2 Belle d'Aout, 50 cts.	12 Keswick Codlin.	22 Summer Pearmain (<i>Amer.</i>).
3 Blinkbonny, <i>very fine,</i> 50 cts.	13 Large Yellow Bough.	23 Summer Queen.
4 Buffington Early.	14 Lyman's Large Summer.	24 Summer Rose.
5 Corse's Favorite, <i>fine,</i> 50 cts.	15 Primate (<i>true</i>).	25 Summer Russet.
6 Early Harvest.	17 Red and Green Sweet (<i>monstrous</i>).	25½ Summer Spitzembergh.
7 Early Joe.	18 Red Astrachan.	26 Summer Sweet Paradise.
9 Early Strawberry.	19 Sinequanon.	26½ Williams' Favorite.
10 Garretson's Early, <i>very fine.</i>	20 Summer Bellflower.	27 William Prince. (<i>Lord. Hort. Soc.</i>)

Class 2.—AUTUMN VARIETIES.

28 Autumn Bough—Fall Bough	44 Lowell.	59 Rambo.
29 Late or Autumn Strawberry.	45 Lyseom.	60 Scarlet Nonpareil.
31 Beauty of the West.	46 Maiden's Blush.	60½ Sum'r Pippin—Sour Bough.
34 Boxford.	47 Monstrous Bellflower.	61 St. Lawrence.
35 Cooper (Ohio).	48 Nyack Pippin.	62 Sweet, Haskell.
36 Doctor, or De Witt.	49 Pomwater Sweet, <i>finest baking.</i>	63 Sweet, Jersey.
37 Drap d'Or—Orange Pippin.	51 Pearmain, Gardener's Sweet.	64 Sweet, Pumpkin, Lyman's Pound Sweet.
38 Fall Pippin.	52 Pearmain, Scarlet.	65 Sweet, Peach Pond.
39 Gravenstein.	54 Dyer—Pomme royale.	66 Sweet, Ramsdell's.
40 Hawley—Dowse.	55 Porter.	67 Sweet, Willis, <i>fine baking.</i>
41 Holland Pippin.	57 Princeall.	68 Sweet, Superb.
43 Lindley's Nonpareil (Southern).	58 Pumpkin Russet (Sweet R't.).	

Class 3.—WINTER VARIETIES.

70 American Golden Russet.	95 King (<i>Tompkins County.</i>).	118 Pippin, American Golden.
71 Bailey Sweet.	96 Lady—Pomme d'Api.	119 Pippin, Cranberry.
72 Baldwin.	96½ Laquier.	120 Pippin, Easter — French Crab.
74 Bellefleur, Yellow.	97 Maclean's Favorite.	122 Pippin, Monmouth.
76 Belmont.	98 Marston's Red Winter.	124 Pippin, Green Newtown.
78 Broadwell.	99 McLellan.	125 Pippin, Yellow Newtown.
79 Carthouſe, <i>Gilpin.</i> <i>Red Romanite, of Ohio.</i>	100 Melon.	126 Pippin, Red Sweet.
80 Chandler.	101 Middle, or Mittle, <i>extra.</i>	127 Pippin, Ribston.
81 Cogswell.	102 Minister.	128 Pippin, Springhill, <i>fine variety of Newtown pippin,</i> 50 cents.
82 Cumberland Spice.	103 Mother.	130 Pomme de Lettre (keeps a year), 50 cts.
83 Dickskill.	104 Murphy.	131 Pomme Grise (<i>Russet,</i>)
84 Domine.	105 Newark King.	133 Prince's Yellow Winter, 50 cts.
86 Dutch Mignonette.	106 Northern Spy.	134 Prior's Red.
88 Fallawater.	108 Ortley, <i>Jersey Greening.</i> <i>White Bellefleur.</i>	135 Rawle's Janet.
89 Pomme de Neige.	109 Pearmain, Blue.	136 Reinette de Caux, 50 cts.
90 Fort Miami.	111 Pearmain, Herefordshire.	137 Reinette, Canada.
91 Golden Ball—Belle et bonne	113 Pearmain, Winter.	138 Rhode Island Greening.
92 Gooseberry, 50 cts.	Autumn Pearmain, Down-ing.	139 Roman Stem.
92½ Henrick Sweet — Sweet Pearmain.	114 Peck's Pleasant, <i>fine variety of Newtown Pippin.</i>	
93 Hubbardston Nonsuch.	115 Pennington Seedling.	
94 Jonathan.		

140 Rome Beauty (Ohio)— <i>Gillet's Seedling.</i>	151 Spitzembergh, Flushing.	161 Sweet, Ladies.
141 Russet, Boston or Roxbury.	152 Spitzembergh, Newtown.	162 Sweet, Seaver.
142 Russet, English (Downing).	153 Spitzembergh, Springhill, new variety of <i>Esopus Spitzembergh</i> , 50 cts.	163 Sweet, Talman.
143 Russet, Golden (English).	154 Swaar.	164 Sweet, Wells.
144 Russet, Honey.	155 Smokehouse.	165 Tewksbury Blush.
145 Russet, Imperial, <i>monstrous.</i>	156 Sweet, Danvers Winter.	166 Twenty Ounce (Pearmain).
146 Russet Pearmain.	157 Sweet, Green.	167 Vanderveer.
147 Seeknofurther, Green.	158 Sweet, Hartford.	168 Victuals and Drink.
148 Smith's Cider (Table),	159 Sweet, Phillip's.	169 Wagener.
149 Seeknofurther, Westfield.	160 Sweet, Lovett's.	170 Wine.
150 Spitzembergh, Esopus.		171 Winesap.
		172 Winter Strawberry.

Class 4.—FOR PRESERVES AND ORNAMENT.

35 cts., except those noted.

173 Api étoilé, or Starry Lady Apple, 50 cts.	177 Siberian Small Red Crab.	183 Chinese Double White, 50 cents.
174 Manning's Siberian Red Crab, 50 cents.	178 Siberian Large Yellow Crab.	184 Rivers' Double Flowering, 50 cts.
175 Montreal Beauty Crab, 50 cents.	180 Power's Siberian Crab.	185 Prince's Roseate Double, new, 50 cts.
176 Siberian Large Red Crab.	181 Transcendent Crab, finest of all, 50 cts.	
	182 Chinese Double Red Flowering.	

VARIETIES OF APPLES RECENTLY ADDED TO OUR COLLECTION.

Bank Sweet.	Early Pennock.	Northern Greening, long keep-ing.
Bohannan.	Equineteley.	Oconee Greening.
Buckingham.	Fall Seeknofurther.	Prolific Sweet.
Campfield.	Fulton.	Reinette Blanche d'Espagne.
Carolina Red June.	Genesee Chief.	Richard's Graft.
Crab, Blood Red.	Hall.	Seneeca Favorite.
Crab, Currant.	Horse.	Snediker.
Crab, Hybrid.	Hubbardston Pippin.	Superb.
Crab, Large Scarlet.	Indian Rareripe.	White Spitzembergh.
Crab, Savannah.	Klaproth.	White Winter Pearmain.
Crab, Siberian Purple.	Lacker.	Winter Sweet Paradise.
Crab, Siberian Striped.	Limber Twig.	Winter Sweet Pearmain.
Crab, White.	Mangum.	Wood's Sweet.
Crowser (Pennsylvania).	Maiden's Favorite.	

Cider Apples.—Harrison and other Estimable Varieties can be supplied.

Rejected Apples.—The American Pomological Society have published a list of 125 Rejected Varieties, many of which are still offered for sale in some Nursery Catalogues. Purchasers should look well to this important point.

SELECT APPLES.

Class I.—SUMMER APPLES.

Bononi, medium size, roundish, deep red, striped, flesh yellow, tender, subacid, rich flavor, good bearer. Aug.

Blinkbonny, medium size, oblate, pale straw color, acid, spicy, the finest flavored of all early apples, productive, a great acquisition. Aug.

Corse's Favorite, medium, oblate, pale yellowish green, tender, very sprightly, subacid, unequalled in flavor for cooking, very productive, ripens gradually through August. A favorite fruit of Lower Canada.

Early Harvest, medium size, roundish oblate, pale yellow, tender, acid, rich, fine, ripens in succession, of slow growth, with slender shoots, but very productive. End of July and Aug.

Early Joe, rather small, oblate, deep red, tender, subacid, spicy, excellent, very productive. Last of Aug.

Early Strawberry, rather small, roundish, deep red, faint stripes, tender, subacid, pleasant, productive. Middle to end of Aug.

Garretson's Early, rather large, roundish, oblate, yellow, tender, subacid, rich, excellent productive, a great acquisition. Aug.

Golden Sweet, large, roundish, pale yellow, sweet, good, fair, vigorous, productive. Late in Aug.

Keswick Codlin, rather large, conical, pale yellow, pleasant acid, juicy, good, excellent for cooking, very productive. Late in Aug.

Large Yellow Bough, or Early Bough, large, roundish, greenish yellow, sweet, very tender, excellent flavor, regularly productive. Aug.

Lyman's Large Summer, large, roundish, pale yellow, subacid, high flavor; a moderate bearer until the tree becomes large. Aug.

Primate, medium size, pale yellow, with a blush, tender, mild and good flavor, vigorous, productive. Aug. and Sept.

Red Astrachan, large, roundish, oblate, bright crimson, beautiful, crisp, acid, juicy, good; vigorous, productive. Aug.

Sinequanon, medium size, pale greenish yellow, tender, spicy, high flavored, excellent, grows slow and slender, productive. Aug.

Summer Pearmain, American, medium size,

oblong, striped and dotted with red, tender, subacid, high flavored, excellent, ripening for several weeks; growth slow, very productive. Throughout Aug.

Summer Queen, rather large, conical, yellow striped with red, handsome, flesh yellow, subacid, rich, spicy, fine flavor, fine for cooking, vigorous growth. Aug.

Summer Rose, medium size, roundish oblate, yellowish blotted with red, very tender, crisp, juicy, mild subacid, excellent; grows rather slow, productive. Middle to end of Aug.

Williams' Favorite, medium size, oblong, crimson striped, mild, agreeable, moderately juicy, excellent, handsome, of moderate growth, productive. Ripens in succession during Aug.

Class II.—AUTUMN APPLES.

Late, or Autumn Strawberry, medium size, roundish, tender, juicy, agreeable subacid flavor, estimable, vigorous, and productive. Sept., Oct., and Nov.

Autumn Bough, medium or rather large, roundish, whitish, sweet, pleasant flavor, much esteemed, very productive. Sept.

Cooper (of Ohio), rather large, round oblate, greenish yellow, striped with red, crisp, juicy, pleasant, not high flavor, productive, much esteemed in Ohio. Midautumn.

Drap d'or, or Orange Pippin, large, roundish, golden yellow, showy, mild subacid, agreeable, moderately vigorous, productive. Sept. and Oct.

Fall Pippin, very large, roundish, rich yellow when ripe, flesh yellowish, rather firm, tender at maturity, rich, aromatic, excellent, vigorous, productive, greatly esteemed. Oct. to Dec.

Pomme de Neige, medium size, round, red, flesh very white, subacid, juicy, spicy, pleasant, much esteemed at the North, vigorous, a French variety, and also well known in Lower Canada. Oct. and Nov.

Gravenstein, rather large, roundish, yellow striped red, tender, juicy, subacid, rich, high flavored, excellent, handsome, vigorous, very productive, well suited to the North. Sept. and Oct.

Hawley, or Dowse, quite large, roundish, pale yellow, tender, fine grained, mild, rich fine subacid flavor, very valuable, rather slow growth, productive. Midautumn.

Holland Pippin; this is not the Summer Pippin, as is erroneously stated in some catalogues, but is an autumnal fruit totally distinct; very large, roundish, somewhat oblong, pale yellow, dull red cheek, flesh white, rather acid, secondary flavor, vigorous growth. Oct. and Nov.

Jersey Sweeting, medium size, round ovate, greenish yellow, striped with red, tender, juicy, very sweet, popular for table and cooking, vigorous, and productive. Sept. and Oct.

Lowell, or Orange, large, roundish oblong, fair, rich yellow, rather coarse, rich acid, excellent, vigorous, productive, finest of its period, and early bearer. It may be a synonym. Sept.

Lyscom, large, round, pale red stripes on yellowish ground, fine grained, mild subacid, moderately rich flavor, good second rate. Oct. and Nov.

Maiden's Blush, rather large, oblate, regular form, fair, pale yellow, red shaded cheek, beautiful, tender, pleasant subacid, good second rate, very productive. Midautumn.

Porter, rather large, oblong conical, bright yellow, fair, tender, rich subacid, fine flavor, a good Northern fruit, productive. Sept.

Dyer, or Pomme Royale, rather large, roundish, pale yellow, tender, very fine grained, very juicy, rich acid flavor, excellent, equalled by few, productive. Sept., Oct., and Nov.

Pumpkin Russet, or Sweet Russet, very large, round, slightly flattened, yellowish green russet, sweet, rich flavor, esteemed, vigorous growth. Oct. and Nov.

Rambo, medium, oblate, streaked and marbled yellow and red, tender, mild subacid, rich, juicy, fine flavor, vigorous growth, productive much esteemed everywhere. Oct. to Dec. at the North, but autumnal at the South.

Ramsdell's Sweet, very beautiful, sweet, excellent, productive.

St. Lawrence, large, roundish, dark red stripes on greenish yellow, rather acid, somewhat rich, agreeable, handsome, productive, a popular Canadian fruit. Midautumn.

Class III.—WINTER APPLES.

Bailey Sweet, large, ovate, bright red, beautiful, tender, mild, rich sweet, excellent, vigorous, upright growth. Nov. to Jan.

Baldwin, large, roundish, bright red striped and shaded on yellow ground, crisp, mild, rich, subacid flavor, handsome, vigorous and rapid upright growth, very productive. A first rate winter-keeping apple, and very suitable in con-

nexion with the Newtown Pippin for exportation; ripens throughout the winter.

Belmont, or Gate, rather large, ovate, pale yellow with a blush, flesh firm, crisp, becomes tender, mild, rich, subacid, fine flavor, very productive, highly valued in some of the Western States. Dec. and Jan.

Blue Pearmain, large, roundish, with dull pur-

plish red stripes, a conspicuous bloom, flesh yellowish, mild, subacid, good, of slow growth, and produces only a thin crop. Oct. to Jan. The Flushing Spitzemberg much resembles it, and is a much more valuable variety.

Danver's Winter Sweet, medium size, roundish, yellow with sometimes a blush, flesh yellow, sweet, rich, tender, vigorous, and productive. Nov. to Mar.

Dutch Mignonette, quite large, roundish, orange with faint stripes, beautiful, firm flesh, becomes tender, rich, subacid, high flavor, rather coarse, growth erect, productive. Nov. to May.

Gooseberry, large, roundish oblate, yellow, sprightly, acid, peculiar flavor, first quality, a favorite London cooking fruit. Jan. to May.

Green Sweet, medium size, roundish, fair, greenish, very sweet, tender, spicy flavor, productive, and a long keeper, growth moderate. Nov. to May.

Hubbardston Nonsuch, large, roundish, ovate, yellow ground striped and dotted with light red, flesh yellow, tender, juicy, very rich, slightly subacid, blended with a rich, sweet, and excellent flavor, superior to the Baldwin in flavor, vigorous growth, very productive. Nov. to Jan.

Jonathan, medium size, round ovate, striped with bright red on yellow, very juicy, subacid, spicy, moderately rich, always fair and handsome, assimilating to the Spitzemberg character, shoots slender and divergent, very productive. Nov. to April.

Laquier, rather large, oblate, striped red on greenish yellow, flesh fine grained, firm, crisp, agreeable, mild subacid. Dec. to March.

Lady Apple, or Pomme d'Api, quite small, flat uniform, brilliant deep red cheek on light yellow flesh tender, crisp, juicy, mild, slight subacid good flavor, a beautiful fancy apple for parties, commands twice the price of any other apple; growth vigorous but not rapid, forms a beautiful regular conical tree with luxuriant foliage, some trees near Flushing have attained the height of 50 feet, each yielding 9 to 11 barrels. There is no variety of apples, large or small, that produces greater crops. Nov. to May.

Melon (Norton's), large, roundish, pale yellow with bright-red stripes and dots, flesh white, tender, subacid, spicy, very juicy, fine flavored, an excellent and beautiful fruit, of slow growth, productive. Nov. to Feb.

Middle, or Mittle, or Middel Apple, it is of very fine quality, very productive, and grew at a division fence, whence its name.

Minister, large oblong conical, striped red on pale yellow, flesh yellowish, subacid, moderately rich, second rate, fair and showy, vigorous growth, very productive. Nov. to Jan.

Monmouth Pippin, rather large, yellow with a bright red cheek, tender, juicy, fine flavor, vigorous and productive, a very estimable winter fruit. Dec. to April.

Mother, large ovate, rich red, flesh yellow, mild subacid and mixed with sweet, rich, very aromatic, somewhat juicy, very productive. It is well suited to the North. Nov. to Jan.

Northern Spy, large, roundish oblate, often flattened, red striped, dark crimson on the sun-

side with a delicate bloom, beautiful, flesh juicy, rich, highly aromatic and retains freshness of flavor until late in the spring, a highly estimable fruit and suitable for exportation; growth very vigorous and erect, very productive. Leaves and fruit buds open late, thereby rendering it very suitable to the North. Dec. to June.

Pearmain, Herefordshire, we do not believe that more than one Nursery besides our own in the whole Union possesses this genuine variety; and that one obtained it from us. They all appear to have confused the common Winter Pearmain with this; and even Mr. J. J. Thomas, whom we deem a generally reliable author on Apples, has fallen into the same error. It is a much larger fruit than the Winter Pearmain, form oblong ovate, with dull red stripes on a pale greenish ground, flesh pleasant, sprightly acid, aromatic, juicy, tender, fine grained, high and pleasant flavor, will keep month longer than the other variety, and is much the most valuable, productive. Nov. to March.

Peck's Pleasant, large, roundish, fair, pale yellow, with a brown cheek, flesh firm, very tender, mild, rich, clear subacid, fine Newtown Pippin flavor, a very estimable variety. Nov. to April.

Pennington Seedling, medium size, oblate, yellowish russet, flesh yellow, firm, crisp, brisk acid, high flavored, excellent, first quality. Dec. to March.

Pippin, Green Newtown, full medium and occasionally large, roundish oblate or flattened, dull green, becoming yellowish green, often dotted, with a brownish red cheek, flesh white, firm, crisp, fine grained, juicy, with a high aromatic flavor, unsurpassed in excellence, keeps long and preserves its freshness; growth rather slow, but quite equal to many other varieties, rough bark after the second year's growth. Immense quantities are grown on Long Island, and on the Hudson River, and it will doubtless succeed in any Apple region, on good free soil, with proper culture. Quantities of the finest fruit come from Western New York. Nurserymen have prejudiced purchasers against this tree, because its slower growth renders it less profitable to them than the rapid-growing varieties.

Pippin, Yellow Newtown. Scarcely any Nursery on this Island or elsewhere in the State possesses this very distinct and genuine variety; but many sell the preceding under the two distinct names of green and yellow, and have thereby caused the confusion as to identity. It is found disseminated in orchards to which we have supplied the true variety during the last 60 years. The fruit is rather large, more flattened than the preceding, clear light yellow, with a bright red cheek, fairer and handsomer, possessing the same qualities, but not quite equal in flavor, keeps during the same period, and is also suitable for exportation. The tree has a more thrifty appearance and grows faster than the preceding. This in Virginia is called "Albemarle Pippin."

Pippin, Ribston, medium or rather large, roundish, yellow and red, flesh yellow, crisp, juicy, very rich, sprightly acid flavor, productive. Succeeds well in the most northern localities,

where it is a winter fruit, but it matures here in Oct. and Nov., and is also valueless.

Pippin, Springhill, a seedling of the Green Newtown Pippin, grown by Judge B. W. Strong, seems identical in character with the parent, and of equal excellence. It has proved of more thrifty growth.

Pomme Grise, small, roundish, gray russet, very tender, fine grained, rich, high flavor, good for dessert and cooking; the tree productive, well suited to the North, and a favorite in Canada. It is an old European variety.

Prince's Yellow Winter, medium, or rather large, roundish oblate, pale yellow, tender, juicy, fine flavor, a very estimable variety. Nov. to April.

Rawles Janet (Neverfail), medium size, roundish, conical, striped pale red on light yellow, firm, crisp, juicy, rich, mild subacid, fine grained, first quality, slow growth, very productive. Keeps very long, and is highly esteemed at the South and Southwest.

Reinette, Canada, quite large, flattened, greenish yellow, often a brown cheek, flesh firm, becomes tender, juicy, rich, sprightly subacid, vigorous growth, productive. It is a French variety, and succeeds well in Canada. Nov. to March.

Rhode Island Greening, large, roundish oblate, greenish yellow, fair and handsome, with a dull blush cheek, flesh yellow, subacid, tender, juicy, very pleasant, excellent for table and cooking; strong oblique growth, spreading, very productive; a most valuable market fruit. Nov. to March at the North, but a fall apple at the South.

Rome Beauty (of Ohio), very large, beautiful, roundish, bright red on pale yellow ground, flesh yellow, crisp, mild, subacid, juicy. Oct. to Dec.

Russet, Boston, or Roxbury, rather large, roundish oblate, rough russet on yellowish ground, often a dull brown cheek, flesh coarse, rather crisp, good subacid, not high flavor; growth vigorous and spreading, very productive. Nov. to June.

Russet Poughkeepsie, erroneously called by some "English Russet," small, roundish, ovate, brownish russet, flesh firm, subacid, aromatic flavor; very productive, and keeps till July or longer. It is probably of foreign origin, but very distinct from and much smaller than the following.

Russet, English Golden, medium size, roundish oblate, yellowish russet, fair and handsome, flesh firm, crisp, tender, rich, aromatic, juicy, estimable growth, vigorous, productive. Nov. to Mar.

Seeknofurther, Westfield, medium to large, roundish, fair, striped with dull red, partially russetted, flesh tender, spicy, rich, fine flavor, growth vigorous, productive. Succeeds well at the North and in Ohio. Nov. to Feb.

Seeknofurther, Green, medium size, roundish oblate, greenish yellow, flesh fine grained,

subacid, juicy, very agreeable flavor. Nov. to Mar.

Spitzembergh, Esopus, rather large, ovate, bright red, flesh yellow, firm, crisp, very aromatic, rich, subacid, unequaled in high flavor; growth slow, rather slender, moderate bearer, esteemed among the very best. Nov. to Mar.

Spitzembergh, Flushing, large, round, conical, dark red, with white dots, and a thin bloom, flesh white, nearly sweet, aromatic, pleasant, good second-rate flavor, growth very vigorous, dense luxuriant foliage, moderately productive. Nov. to April.

Spitzembergh, Springhill, a beautiful seedling of Esopus Spitzemberg grown by Judge B. W. Strong, medium size, ovate, bright red, flesh subacid, aromatic, rich flavor, estimable. Nov. to Mar.

Swaar, rather large, roundish, often oblate, pale lemon yellow, flesh yellowish, firm, fine grained, tender, spicy, slight subacid, mild, very rich, esteemed one of the best, growth moderate, very productive. Nov. to May.

Talman Sweeting, medium size, roundish oblate, whitish yellow, flesh white, firm, very sweet, secondary flavor for dessert, excellent for cooking; growth vigorous, very productive. Nov. to April.

Tewksbury Blush, small, round oblate, yellow with red cheek, flesh yellow, firm, juicy, good flavor, vigorous growth, very productive, keeps till July. It requires a long season to mature, and is therefore best suited to the South.

Twenty Ounce (Pearmain), very large, fair, and very beautiful, roundish oblate, striped rich red on yellowish ground, a monstrous Pearmain variety, flesh rather coarse, subacid, assimilating in flavor to the winter Pearmain, second rate, excellent for cooking, growth upright, productive. Popular at market, Oct. to Jan.

Vanderveer, usually misspelt "Vandervere," medium size, round oblate, pale red stripes on yellow ground, deep red on sunside, flesh light yellow, mild, subacid, rich, excellent flavor, growth fair, good bearer, does best on light soils. Oct. to Mar.

Wagener, medium to large, oblate, yellow striped pale red, deep red on sunside, flesh yellowish, aromatic, excellent, very productive. Dec. to May.

Winter Pearmain—Autumn Pearmain of Downing, medium or under, ovate, ends flattened, stripes of dull red on pale yellow, flesh dull yellow, very tender, subacid, aromatic, very pleasant, high flavored, growth moderate, very productive. An old and universal favorite. Nov. to Mar.

Yellow Bellflower, or Bellefleur, large, often very large, oblong ovate, yellow, with a blush cheek, flesh fine grained, very tender, subacid, crisp, juicy, sprightly aromatic, excellent, a splendid and favorite fruit, growth vigorous, very productive. Well adapted to the Northern and Middle States, and as far west as Kentucky. Nov. to April.

PEARS—PYRUS COMMUNIS.

Note.—There is never any *Pear Blight* or *Sap Blight* on Long Island, and the Trees are never injured by the winter.

The stock of Pears is the finest in the Union, and the prices low for the quality, and we can supply the leading and most esteemed varieties on both Pear and Quince. Such as do not succeed on the Pear we can supply on the Quince, and contrarwaise.

Standards on Seedling Pear stocks, 3 to 4 years budded, 50 cts.

Do do extra size, 4 to 6 years, 75 cts. to \$1 50

Do do largest size, 8 and 9 years bearing age, 2 00

Pyramids and Dwarfs on Angers Quince, 3 years, 50

Do do do do 4 to 8 years, in full bearing, 75 cts. to 1 50

according to age and size.

Secondary sized Trees to those priced at 50 cts. will be supplied at 37½ cts.

~~Large~~ The Extra Large-sized Trees are suitable for prompt bearing, and seldom obtainable, and are usually sold at \$3 to \$5 each.

The American varieties are denoted by an asterisk, *

N. B.—All the other finest European varieties, including the most new and rare, can be supplied 2 to 3 years budded on the Angers Quince.

REJECTED PEARS. The American Pomological Society have published a list of 451 *Rejected Varieties*, many of which are still offered for sale in Nursery Catalogues. Purchasers should look well to this important point.

Class I.—SUMMER PEARS.

Bartlett, large pyriform, clear yellow, often a blush, fine grained, very tender and buttery, sweet with a slight subacid, perfumed, moderately rich flavor, a splendid fruit, tree bears young, very productive, commands the highest market price.

Beau Present d'Artois, rather large, half melting, very juicy, fine flavor, first quality, tree vigorous and very productive. A new and highly esteemed variety.

Beurre Benoist, medium, melting, slightly perfumed, agreeable flavor, first quality, tree vigorous and productive.

Beurre Giffard, medium, melting, juicy, pleasant flavor, greatly esteemed, tree very productive, fruit larger than the Madeleine, and equally good.

Bloodgood, medium, obovate, yellow, russetty, buttery, sweet, rich aromatic flavor, rather slow growth, moderate crop.

Brandywine, medium, pyriform, yellowish green, melting, very juicy, fine flavor, tree very productive.

Canandaigua, has erroneously been called *Catharine*, very much resembles the Bartlett, but not quite as large or as good; tree vigorous and very productive, the fruit ripens at same period as the Bartlett.

Dearborn's Seedling, small, turbinate, clear yellow, fine grained, melting, juicy, fine flavor, but has been unduly extolled, when its size and quality are contrasted with others; tree of slow growth, bears young.

Doyenne d'été, small, obovate, yellow, bright cheek, melting, juicy, sweet, pleasant, not high flavor, tree bears very young.

European Honey, medium or under, roundish, yellow, sweet, good flavor, tree productive.

Heathcot, medium, obovate, pale whitish yellow, russetty, fine grained, very buttery, perfumed, excellent flavor, tree very hardy, and very productive.

Jargonelle, English, rather large, long pyriform, greenish yellow, brownish cheek, juicy, pleasant subacid, moderate flavor, very productive, valuable for market.

Kingsessing, rather large, obovate, green shaded, buttery, delicate, rich flavor.

Madeleine, medium, obovate, yellowish green, melting, very juicy, slight acid, delicate, agreeable refreshing flavor, vigorous growth, very productive; one of the best early Pears.

Moyamensing, rather large but variable, obovate pale yellow, buttery, melting, good flavor, productive.

Muscadine, medium, obovate, yellowish green, buttery, melting, somewhat coarse and astringent, rather rich, good flavor.

Osbard's Summer, medium or under, obovate, yellow, reddish cheek, sweet, mild, and excellent flavor, one of the finest early Pears.

Queen of August, large, roundish ovate, very fair, pale yellow, tender, melting, buttery, juicy, pleasant flavor, excellent, tree very vigorous. A new and very valuable seedling variety, originated by ourselves, the largest of early pears, ripe during the last half of August.

Rositzer, rather small, sometimes medium, pyriform, brownish green, reddish cheek, melting, juicy, sweet, very high perfumed flavor, of great excellence, one of the finest late summer pears.

Summer Francreal, medium, obovate, yellowish green, sometimes a blush, fine grained, buttery, melting, rich and excellent, much esteemed; tree thrifty, very productive.

Tyson, medium, pyriform, bright yellow, reddish cheek, fine texture, buttery, very melting and juicy, nearly sweet, perfumed, high and excellent flavor, tree vigorous, very productive.

Williams's Early, rather small, roundish, bright yellow, half buttery, juicy, somewhat musky, rich flavor, handsome.

Class II.—AUTUMN PEARS.

Henry IV., medium, obovate, greenish, yellow, melting, juicy, rich, perfumed, mostly first rate in flavor, tree vigorous, very productive.

Andrews, medium, pyriform, fair, yellowish green, reddish cheek, very juicy, melting, very agreeable flavor, very productive.

Beurre Rose, rather large, pyriform, deep yellow, buttery, juicy, sweet, perfumed, excellent; growth slow, fair crop.

Beurré Brown, large, oblong obovate, yellowish green, russetted, very juicy, melting, buttery, rich subacid vinous flavor; much esteemed, growth slow and flexuose, and requires high cultivation.

Beurré d'Amanlis, large, obovate, yellowish green, some russet, reddish cheek, buttery, melting, juicy, rather rich, good, not high flavor, growth vigorous, productive.

Beurré d'Amanlis panaché, fruit similar in quality to the preceding, but both the wood and the fruit singularly striped with red and yellow,

Beurré d'Anjou, rather large, obovate, greenish yellow, somewhat russetted, red cheek, fine

grained, buttery, melting, rich, vinous, delicious flavor.

Beurré Bachelier, large, fair, yellow, buttery, rich flavor, excellent, first rate, one of the most valuable new varieties.

Beurré Clairegean, large, irregular pyriform, yellow, shaded with crimson and dotted over; flesh yellowish, buttery, juicy, sugary, perfumed, vinous flavor. A most splendid fruit, greatly esteemed; tree vigorous, early in bearing, very productive.

Beurré Diel, very large and splendid, obtuse pyriform, dull yellow, some russet, buttery, juicy, rich, firm flavor, vigorous growth, productive, and on the Quince often weighs a pound.

Beurré Golden Bilboa, medium, obovate, fine yellow, some russet, fine grained, very buttery, melting, moderately rich, sometimes a slight acid astringency, not high flavor, productive.

Beurré Langlier, large and handsome, juicy, melting, high flavor, excellent, first quality, tree vigorous and productive.

Beurré Superfin, large, handsome, buttery, melting, high flavor, very excellent, one of the finest varieties, tree vigorous and productive.

Bergamotte Cadette, or Beurré Beauchamps, medium, roundish obovate, greenish yellow, often russeted, with reddish brown cheek, buttery, melting, sweet, quite rich, slightly perfumed, excellent, productive, highly esteemed.

Bergamotte, Gansels, medium, rather large, roundish, oblate, yellowish brown, faint brownish blush, melting, juicy, sweet perfume, rich, first rate flavor, highly esteemed.

Bergen, large, turbinata, yellow, red cheek, buttery, juicy, melting, sweet, excellent flavor.

Beurré Van Marne, medium, or rather large, pyriform, yellow, juicy, melting, sweet, very agreeable flavor, estimable, tree productive, and soon in bearing.

Bezl de Montigny, medium, obovate, yellowish green, half buttery, melting, juicy, sweet, perfumed, good flavor.

Buffum, a seedling of the white Doyenné, medium, fair, obovate, yellow, reddish cheek, somewhat russeted, buttery, sweet, good flavor, tree very vigorous, produces great and regular crops.

De Louvain, distinct from Beurré de Louvain, which is a baking pear, medium, obovate, light yellow, somewhat russeted with reddish dots, buttery, melting, rich, fine flavor, an estimable variety.

Dix, large, pyriform, deep yellow, sweet, juicy, rich, excellent, sometimes rather acid, valuable, very tardy in bearing.

Doyenne Boussoch, large and showy, thick obovate, lemon yellow, somewhat russeted; often a reddish cheek, buttery, melting, very juicy, first rate flavor.

Doyenne, Gray, medium, obovate, cinnamon russet, very buttery, melting, rich, perfumed, delicious flavor, much esteemed, very productive.

Doyenne Sieulle, medium, roundish, obtuse, pale yellow, slight blush, fine grained, buttery, rich, excellent flavor, tree vigorous, productive.

Doyenne, White. This is the Virgaliue of the New York markets, and the Butter Pear of Philadelphia. Medium, or rather large, obovate, fine grained, buttery, melting, juicy, rich, excellent flavor, none more esteemed, commands the highest price; tree of vigorous growth, and produces great crops on standard trees in the interior of this State, and on the Quince it yields well everywhere. The Striped Doyenne is valueless.

Duchesse d'Angouleme, very large, often weighing a pound or more, obovate, greenish yellow, rather coarse, buttery, juicy, very good on Quince, worthless on the pear stock.

Duchesse d'Orleans, medium to large, pyriform golden yellow, often russeted, red cheek, buttery, melting, rich, delicious, very handsome.

Dunmore, large, oblong obovate, greenish with brownish russet dots, buttery, melting, perfumed, rich, fine flavor, growth vigorous, productive.

Flemish Beauty, large and splendid, always fair, obovate, reddish brown russet on pale yellow ground, juicy, melting, usually very rich, sweet, and excellent flavor, but variable, and

sometimes not highly flavored, a very valuable fruit, tree vigorous, productive.

Fondante d'Autonne, or Belle Luctuative, medium, obovate, yellowish green, slightly russeted, fine grained, very juicy, melting, rich, perfumed, excellent, one of the finest of pears, tree vigorous, very productive, and comes soon into bearing.

Fondante de Malines, medium size, melting, very juicy, excellent flavor, first rate, one of the finest new varieties, tree hardy and vigorous, succeeds well on the Quince.

Frederick of Wurtemberg, large and beautiful, short pyriform, yellow, brilliant red cheek, very melting, buttery, juicy, variable in quality, sometimes delicious, often inferior, tree very vigorous, productive, a beautiful market fruit.

Fulton, nearly medium, roundish oblate, dark cinnamon russet, half buttery, melting, sprightly, agreeable rich flavor, estimable, tree vigorous, produces large and regular crops.

Jalousie de Fontenay, medium, thick pyriform, yellowish green, somewhat russeted, often faint red cheek, buttery, melting, mild, rich, fine flavor, estimable.

Louise Bonne of Jersey, large, pyriform, yellowish green, dull red cheek, very juicy, buttery, rich, faintly subacid, fine flavor, tree vigorous, very productive, succeeds admirably on Quince, and is relied on for its great crops, and as a favorite market fruit.

Marie Louise, crooked and irregular growth, fruit large, pyriform, yellowish, somewhat russeted, buttery, melting, vinous, rich, five flavor, but variable, and often 2d or 3d rate. Requires high cultivation to perfect the fruit.

Napoleon, medium, pyriform, yellowish green, extremely juicy, melting, moderately rich, good flavor, sometimes astringent, tree hardy, thrifty, very productive.

Nouveau Poiteau, above medium, obovate, pale green, with a few blotches of russet, fine grained, melting, juicy, rich aroma, excellent, very highly esteemed, tree vigorous and bears promptly and abundantly.

Onondaga or Swan's Orange, very large and splendid, obtuse oval, rich yellow, often brown cheek, slightly coarse, buttery, melting, rich, high flavor, estimable but not first quality, vigorous growth, productive.

Oswego Beurré, medium, obovate, yellowish green, melting, juicy, fine sprightly vinous flavor at first, then becoming nearly sweet, tree very hardy and vigorous, and greatly productive, an estimable and reliable variety.

Paradise d'Autonne, rather large, pyriform, deep yellow, same appearance and qualities as the Beurre Bois, more melting and sprightly, and the growth more vigorous, which gives it a decided preference.

St. Michael Archangel, large, pyriform, greenish yellow, russeted crown, rather coarse, half melting, juicy, rich, good but not high flavor, about equal to the Bartlett.

Seckel, a tree of slow, compact growth, fruit small, in clusters, yellowish brown, deep dull red cheek, fine grained, sweet, very juicy, melting, buttery, delightful musky aroma, the richest and highest flavored of pears. Requires a rich soil and high culture.

St. Ghislain, medium, pyriform, pale yellow, buttery, juicy, fine flavor, estimable, tree vigorous, productive.

Stevens' Genesee, large, round obovate, often flattened, half buttery, sweet, rich, fine flavor, nearly first rate, tree vigorous, productive.

Triompe de Jodoigne, very large, pyriform, deep yellow, dark red cheek, juicy, melting, good flavor, growth vigorous, productive.

Urbaniste, rather large, obovate, pale yellow, slightly russeted, melting, buttery, delicious perfumed flavor, very fine, growth vigorous.

Van Assche (Van Assene, erroneously), rather large, obovate, dull yellow, buttery, melting, rich fine flavor.

Van Mons Leon le Clere, very large and splendid, long pyriform, yellowish green, fine grained, buttery, melting rich, fine flavor, the body and branches are grooved, and have an unthrifty appearance, productive.

Washington, medium, obovate, clear yellow, red dots on sun side, very juicy, melting, rich, perfumed, very sweet, first rate flavor, tree vigorous, very productive.

CLASS III.—WINTER PEARS.

Alexandre Bivort, medium, greenish, russet, juicy, very melting, sweet, very highly perfumed, excellent flavor, succeeds well on quince.

Beurré d'Aremberg, large, short pyriform, greenish yellow, partially russeted, buttery, melting, rich, high subacid flavor, very productive, tree unthrifty, of slow growth, the shoots covered with small wart-like excrescences. It should be superseded by the Soldat Laboureur and Gloux Morceau.

Beurré Easter, large, obovate, yellowish green, partially russeted, reddish cheek, fine grained, very buttery, melting, and when well ripened of excellent first rate flavor, tree vigorous, and succeeds well on quince.

Beurré Rance, medium, pyriform, dark green, melting, sweet, juicy, fine flavor, better at the South than at North, tree vigorous, productive.

Beurré gris d'hiver nouveau, medium, obovate, greenish, considerably russeted, buttery, melting, very juicy, rich, slight subacid, resembling in flavor the Beurre d'Aremberg, very valuable.

Chamontel, succeeds only on quince, a large, noble fruit, pyriform, yellowish mingled with brownish red, deep red cheek, buttery, melting sugary, excellent flavor, it requires warm rich culture.

Doyenne d'Alencon, or Doyenne d'hiver nouveau medium, obovate, yellowish green, buttery, melting, excellent flavor, highly esteemed, keeps well through the winter, tree vigorous, and exceedingly productive. This is a most valuable and reliable fruit to grow for the markets and for exportation. It succeeds well on both Quince and Pear.

Fondante de Noel, or Belle de Noel, medium, obovate, greenish yellow, dark red cheek, melting, juicy, fine flavor, much esteemed.

Glout Morcean, large, short pyriform, greenish yellow, fine grained, buttery, melting, sweet, without acid, rich, excellent flavor, tree exceedingly vigorous and productive, succeeds remarkably well on the Quince. This is the *original and true* Beurre d'Aremberg. The blunder of substituting an erroneous one originated at Boston, as we may explain hereafter.

Josephine de Malines, medium, roundish, obovate, yellow, blush cheek, melting, juicy, vinous, fine flavor, greatly esteemed, and by many placed in the highest rank.

Lawrence, rather large, melting, juicy, rich

flavor, much esteemed, tree very hardy, very vigorous, and exceedingly productive. It is admirably suited for barreling to send to our distant cities, and for exportation, and is destined to be among Pears what the Newtown Pippin is among Apples.

Passe Colmar, medium, pale yellow, fine grained, buttery, juicy, sweet, rich, excellent, first rate flavor, tree of flexuose, irregular growth, over productive, and the fruit must be thinned out.

Prince's Perpetual, medium size, fair quality, portable when fully matured, excellent for cooking, will keep till June, produces great crops.

St. Germain, Prince's, rather large, obovate, green, much russeted, dull red cheek, melting, juicy, slightly vinous, very agreeable fine flavor, one of the very best winter pears, tree vigorous, very productive. This is a most valuable Pear to be grown for barreling and supplying our distant markets, or for exportation.

Soldat Laboureur, large, yellow, buttery, melting, high flavored, excellent, first rate, tree very vigorous and productive. This is much to be preferred to the Beurre d'Aremberg, which is similar in quality, but of very unthrifty growth, and advances but slowly in comparison with this variety.

Suzette de Bayav, yellow, speckled reddish brown, very juicy, half melting, sweet, high flavor, excellent, greatly esteemed.

Vicar of Winkfield, large, very fair and handsome, long pyriform, yellowish green, dull red cheek, buttery, juicy, good second rate flavor, sometimes slightly astringent, but when ripened in a warm temperature is a good dessert pear, tree very vigorous, exceedingly productive, forms a noble tree even on the Quince stock. The long keeping of the fruit renders it eminently valuable, and it may be grown most profitably for market and exportation to any extent.

Vicomte de Spoelberch, medium or rather large, obovate, yellow, purplish cheek, buttery, melting, rich, fine flavor, requires good soil and culture.

Winter Nelis, medium or under, roundish, obovate, yellowish green, much russeted, fine grained, buttery, very melting, rich, sweet, perfumed flavor, growth slender, flexuose and straggling, very productive, early in bearing.

CLASS IV.—BAKING AND STEWING PEARS.

Black Worcester (Iron Pear of Boston), rather large, short ovate, dark russet on light green surface, firm, coarse, rather austere, cooks well, rich flavor, highly esteemed, tree of straggling growth, produces heavy crops, very profitable for market.

Bonchretien, Flemish, medium, obovate, pale green, brown cheek, crisp, juicy, tender when cooked, a first rate culinary fruit throughout the winter.

Catillac, very large, turbinata, yellow, often

reddish cheek, firm, but valuable for cooking, becomes tender and excellent.

Uvedale's St. Germain, or Pound, very large, has weighed two pounds, pyriform, yellowish green, brown cheek, solid, long keeping, a first rate culinary pear, tree vigorons, attains the loftiest dimensions, producing great and regular crops. Quantities are sold in New York for exportation, and it may be grown and barreled with as much facility as Apples are.

CHERRIES—PRUNUS CERASUS.

Standard Trees of large growth, 2 to 3 years,	37 to 50 cts.
Pyramid and Dwarf Trees, of low growth, 2 and 3 years,	37 to 50 cts.
Trees of both the above classes, 4 to 7 years old, in a bearing state, 75 cts. to \$1, and \$1 50	
Dwarf Standards on Mahaleb,	37 to 50 cts.

Note.—All the Cherries we cultivate for the North and West, are on the hardy Mahaleb and Morello Stocks, as Trees on the Mazzard stock will scarcely survive the severe winters of those regions. The Duke, Kentish, and Morello Varieties are much more hardy than the Heart and Bigarreau Varieties.

HEART CHERRIES.

1 Adam's Crown.	10 Cumberland. (? syn.)	18 Manning's Mottled.
2 American Amber	11 Downer's Late.	19 Monstrueux de Jodoigne.

The American Pomological Society has also rejected many other varieties, as announced in their publications.

American Heart.	Corwin.	May Bigarreau.
Arden's White Heart.	Davenport.	Merveille de Septembre.
Baumann's May.	Early May, or Indulle.	October Bigarreau.
Belle Agathe.	Early White Heart.	Ox Heart.
Bigarreau d'Octobre.	Gridley.	Red Bigarreau.
Black Heart (old variety.)	Hildesheim Bigarreau.	River's Early Amber Heart.
Black Mazzard.	Holland Bigarreau, <i>synonym.</i>	Robert's Red Heart.
Bowyer's Early Heart.	Hyde's Red Heart.	Rumsey's late Morello.
Burr's Seedling.	Lindley.	Sweet Montmorency.
Buttner's October Morello.	Louis Phillippe.	Tardive de Mans.
Buttner's Yellow.	Madison Bigarreau.	Waterloo, <i>dubious variety.</i>
Coe's late Carnation.	Manning's Early Black.	Wilkinson.
	Manning's Early White.	

Class 1.—HEART CHERRIES.

American Amber, medium, obtuse heart shape; dark pink color, tender, sweet, rich, excellent, tree very vigorous and productive, an indispensable variety. Ignorant persons condemn it, not having seen it, and confuse it with other varieties.

Black Eagle, medium, roundish, nearly black, very sweet and rich, high flavor, excellent.

Black Tartarian, quite large, splendid, heart shaped, shining black, half tender, consistent, sweet, rather rich, fine flavor, tree vigorous, remarkably upright, very productive.

Belle d'Orleans, earliest of all, white, shaded with pale red, tender, juicy, delicious, growth very vigorous, productive, highly esteemed.

Brant, large, heart shape, reddish black, half tender, sweet, juicy, rich flavor.

Champagne, (Downing,) medium, roundish, heart shape, bright red shaded, juicy, sprightly, rich flavor.

Columbia, a large and estimable Seedling variety, originated at Newtown, Long Island.

Cumberland, large, obtuse heart shape, purplish crimson, rather firm, fine flavor, first quality.

Coe's Transparent, medium, nearly globular, pale amber, red cheek, very tender, sweet, melting, excellent, tree very vigorous, productive.

Delicate, (Kirtland,) medium, roundish, yellow and light red, mottled, sweet, tender, juicy, high flavor, excellent.

Doctor, medium, roundish, pale yellow and red, sweet, tender, juicy, delicious flavor.

Downer's late red, medium, round heart shape, bright red, mottled with amber, tender, sweet, delicious, not subject to rot by rainy weather.

Downton, large round heart shape, cream color, shaded with red, tender, rich, delicious flavor.

Early Purple Guigne, very early, ripe next after Belle d'Orleans, and at same time as Baumann's May, size medium, heart shaped, dark red, nearly black, tender, sweet, juicy, rich flavor, tree less vigorous than most others of this class.

Early Black Heart, (Prince's) medium to large, heart shape, black, tender, juicy, excellent, very estimable, tree vigorous and productive.

Favorite, (Elliott's) medium, round, yellow, marbled, carmine cheek, sweet, juicy, delicate, requires high culture to perfect its size and flavor, otherwise is inferior.

Golden Guigne, medium, round, bright golden color, honeyed sweet, tender, delicious, thin skin, beautiful, a very distinct fruit, tree vigorous, very productive, in clusters.

Governor Wood, largest size, roundish, pale yellow, marbled with carmine, half tender, sweet, juicy, rich, high flavor, very estimable.

Hovey, large, heart shape, amber nearly covered with bright red, rather firm, tender, sweet, fine flavor, tree vigorous, productive.

Jocosot, large, heart shape, shining liver color, almost black, tender, sweet, juicy, rich flavor.

Kirtland's Mary, large, roundish, light and dark, glossy red mottled on yellow, firm, sweet, juicy, rich, very high flavored.

Knight's Early Black, large heart shape, black, tender, juicy, very rich, high flavor, excellent.

Large Black Heart, (Prince's) considerably larger than the common Black Heart, (which we reject,) beautiful, shining black, obtuse heart shape, tender, sweet, juicy, excellent, first qualities, tree exceedingly vigorous and productive.

Logan, medium, heart shape, purplish black, rather firm, sweet, juicy, rich flavor, tree hardy, vigorous, moderately productive.

Mammoth, (Kirtland's) very large, but not equal in size to the Large Red Prool, yellow marbled with red, tender, sweet, juicy, fine flavor, and moderately productive.

Manning's Mottled, medium, round heart shape, amber mottled with red, tender, sweet, good flavor, second rate, productive.

Ohio Beauty, large, heart shaped, dark and pale red marbled, tender, juicy, high flavor, tree very vigorous, productive.

Osceola, medium to large, heart shape, purplish red, nearly black, sweet, juicy, rich flavor.

Pontiac, large, heart shape, purplish red, nearly black, tender, sweet, juicy, pleasant flavor.

Powhattan, medium, roundish, bright liver colored, half tender, sweet, juicy, pleasant, not high flavor, tree vigorous, productive.

Sparhawk's Honey, medium, round heart, pale amber to bright red, sweet, juicy, fine flavor, rather late, very productive.

Tecumseh, medium to large, heart shape, reddish purple, mottled, half tender, sweet, very juicy, not high flavor, hardy, late in blossoming.

Werder's Early Black, medium, roundish heart, purplish red, nearly black, tender, sweet, juicy, rich flavor.

White French Guigne, rather large, creamy white, sweet, tender, juicy, excellent, tree vigorous, very productive. White cherries are not so liable to attack from Birds, as Red and Black ones are.

Class 2.—BIGARREAU CHERRIES.

Bigarreau of Mezel, very large, heart shaped, dark red, firm, sweet, excellent, beautiful, highly esteemed, growth very crooked and irregular.

Black Bigarreau of Savoy, very large, roundish heart, shining black, beautiful, firm, fine flavor, excellent, tree vigorous, productive. One of the most admired and rare varieties.

Black Hawk, large, heart shape, deep purplish black, sweet, juicy, rich, fine flavor, estimable.

Buttner's Yellow, medium, roundish, pale yellow, firm, sweet, good flavor, late, tree vigorous.

China Bigarreau, medium, heart shape, amber, beautifully mottled with red, half tender, sweet, peculiar flavor, second rate, rather late. Grown from seed by William Prince.

Cleveland, large, roundish, bright red on yellow, juicy, rich, fine flavor, very vigorous, and very productive.

Elton, or Flesh-colored Bigarreau, large, pointed heart, pale yellow shaded red, flesh firm, becomes rather tender, rich, high flavored, excellent, one of the finest cherries in all respects.

Florence, large, heart shaped, amber, yellow marbled with red, red cheek, firm, sweet, juicy, rather late. Resembles Graffion, but later.

Graffion.—Bigarreau.—Yellow Spanish. This is not a genuine Bigarreau, that title applying only to *firm and crackling* cherries. Fruit very large, obtuse heart shaped, clear yellow, pale red cheek, beautiful, tender, rich flavor, excellent, tree vigorous, very productive. This variety is greatly esteemed for its size, beauty, and abundant crops. It was introduced by William Prince, from England, under the name of Yellow Spanish.

Keokuk, large, heart shape, dark purplish black, tender, rather coarse, deficient in flavor, does well for market, tree very vigorous.

Late White Bigarreau (Kirtland's), large obtuse

heart shape, pale straw, bright red cheek, firm, sweet, juicy, pleasant flavor.

Leather Stocking, medium, heart shape, deep red at maturity, very firm, sweet, good flavor, bears distant transportation, vigorous, moderately productive.

Large Heart Shaped, or Gros Coeur, very large, heart shape, shining blackish red, firm, sweet, rich, excellent flavor, a splendid fruit, tree vigorous, productive.

Large Red Prool, Great Bigarreau of Downing, introduced by William Prince from the south of France, the largest of all Cherries, oval, heart shape, splendid, shining blackish red, flesh red, firm, very sweet, rich, excellent flavor, tree very vigorous, productive; the first of Cherries in estimation. We have disseminated this splendid Cherry for above 30 years, and other Nurseries are now beginning to cultivate it.

Napoleon, very large, heart shaped, pale yellow spotted with deep red, very firm, fine flavor, scarcely first rate, rather late, tree vigorous, very productive, a suitable market fruit.

Red Jacket, large, heart shape, amber shaded with pale red, tender, juicy, good, but not of high flavor, very productive, ripens late.

Rockport, large, roundish, bright red mottled on pale yellow, firm, sweet, juicy, rich, delicious flavor, very vigorous, productive.

Toupié de Henrard, a large and remarkable cherry, oval with a point, sweet, rich, excellent.

Tradescant's Black, or Elkhorn, large, oval heart, black; flesh deep red, firm, leathery, not juicy, fine flavor, a very beautiful variety, ripening rather late after other kinds are scarce, well suited for distant carriage to market.

Wendell's Mottled, medium or large, obtuse heart, dark red nearly black, mottled, firm, crisp, high flavored, rather late.

Class 3.—DUKE, KENTISH, AND MORELLO CHERRIES.

The fruit of this class is generally round, or nearly so.

Belle de Choisy, medium, pale amber, mottled with red, bright red cheek, very tender and very juicy, mild, subacid, nearly sweet, excellent, moderately productive.

Belle Magnifique, or Magnifique de Seaux, quite large, rich, red, mild flavor, not highest quality, productive, one of the best late varieties.

Carnation, creamy white, mottled with red, firmer than others of this class, partially bitter at first, then mild acid, rich, pleasant flavor, second quality, distinct Spanish variety.

De Plancheoury, large, dark red, sweet, tender, juicy, estimable.

Donna Maria, medium, dark red, tender, subacid, juicy, estimable for cooking, forms a small compact tree, very productive.

Duchesse de Palluan, large, dark red, acid, tender, juicy, excellent.

Jeffrey's Duke, medium, bright red, tender, juicy, rich, fine flavor, growth slow, very compact.

Kentish, or Early Richmond, medium, full red, acid, very juicy, fine flavor, excellent for early cooking, ripens early, and hangs long free from rot.

Late Duke, large, rich, deep red, subacid, not so rich as Mayduke, ripens very late, productive.

May Duke, or Holman's Duke. Three-fourths of the trees sold under this name are spurious, they being a late variety. The genuine is one of the earliest Cherries, large, red, becoming nearly black at full maturity, acid, very juicy, rich, excellent and grateful flavor, very hardy and productive.

Morello, English, medium to large, dark blackish red, rich, acid, slight astringency, juicy and good, very productive, growth slow, like all others of the Morello family.

Morello, Imperial, late, round, dark purplish red, tender, juicy, rich acid, estimable, very productive.

Morello, Plumstone, large, roundish heart, deep red, rich acid flavor, juicy, excellent, very late, the stone long and pointed.

Natte Precoce Morello, large, round, black, rich acid, earliest of its class.

Reine Hortense, large, sprightly subacid, juicy, rich, excellent, ripens late and hangs long, moderately productive, a valuable acquisition.

Royal Duke, very large, dark red, tender, juicy, rich, excellent, rather late.

Shannon, or Kirtland's Morello, medium, globular, deep purplish red, tender, juicy, acid, ripens late.

PLUMS—PRUNUS DOMESTICA.

Usual size, 50 cents each. Extra large trees, of bearing size, 4 to 7 years, \$1 to \$1 50.
Dwarf trees, 37 to 50 cents, according to age.

N. B. Above 30 varieties are never subject to knots in this part of the State.

1 Angelina Burdett.	24 Deniston's Superb.	46 Gage, Schuyler.
2 Apricot (of Tours),	25 Deniston's Red.	47 Galbraith.
3 Bingham.	26 Diaprée rouge.	48 General Hand, <i>largest of all.</i>
4 Bradshaw,	<i>Mimms.</i>	49 Guthrie's Apricot.
<i>Large Black Imperial.</i>	27 Double flowering, Large.	50 Guthrie's Aunt Anne.
5 Brevoort's Purple.	28 Double flowering, Dwarf or	51 Guthrie's Topaz.
6 Buel's Favorite.	<i>Sloe.</i>	52 Hawkes.
7 Campbell's Seedling.	The two last are Ornamental only.	53 Huling's Superb.
8 Catharine, Schenectady.	29 Drap d'Or.	54 Imperatrice, Blue.
9 Cherry, or Early Scarlet.	30 Duane's Purple French.	55 Imperatrice, Downton.
10 Cherry, Golden.	31 Early Favorite, Rivers.	56 Imperatrice, Ickworth.
11 Chicasaw, Red.	32 Emerald Drop.	57 Imperial Milan.
12 Chicasaw, Late Red.	33 Fulton	58 Imperial Ottoman.
13 Chicasaw, Yellow.	33½ Gage, American Yellow.	59 Imperial Purple.
14 Coe's Golden Drop.	34 Gage, Autumn.	60 Isabella.
15 Coes' Late Red.	35 Gage, Bleeker's.	61 Italian Damask.
<i>Red St. Martin.</i>	36 Gage, English Yellow.	62 Jaune hative.
16 Columbia, <i>very large.</i>	37 Gage, Dana's Yellow.	<i>White Primordian.</i>
17 Cooper's Large Red.	39 Gage, Green.	63 Jefferson.
18 Corse's Nota Bene.	40 Gage, Hudson.	64 Jerusalem.
19 Cruger's Scarlet.	41 Gage, Imperial (Prince's.)	65 Late Black Orleans.
20 Damson, September.	42 Gage, Red (Prince's.)	66 Large Red Toulouse
21 Damson, Shropshire.	43 Gage, Prince's Yellow.	67 La Royale.
22 Damson, Winter, or Late.	44 Gage, Purple.	68 Lawrence's Favorite.
23 Date of Agen.	45 Gage, Royal Green.	

69 Lombard.	86 Orleans, Early.	101 Quetche, St. Martin's.
70 Long Scarlet—Scarlet Gage.	87 Orleans, Smith's.	102 Red St. Martin.
71 Madison.	88 Parsonage.	Coe's late red.
72 Magnum bonum, White. White Egg.	89 Peach Plum.	103 Reagles Ancient City.
73 Magnum bonum, Yellow. Yellow Egg.	90 Perdignon violet hatif.	104 Reagles Gage.
74 Mamelonnnce.	91 Prince Englebert.	105 Reagles Union Purple.
75 Manning's Prune.	92 Prince of Wales.	106 Reine Claude de Bavay.
76 McLaughlin.	93 Pond's Seedling (<i>English.</i>)	107 Reine Claude Diaphane.
77 Masterion.	94 Precooce de Berthold.	108 Reine Claude d'Octobre.
78 Martin's Seedling.	95 Prune, Austrian.	109 Royale de Tours.
79 Mediterranean.	96 Prune, d'Agen,	110 Royale hative— <i>Early Royal.</i>
80 Miller's Spanish, <i>very large.</i>	97 Prune, German. } for Quetche.	111 St. Catherine.
81 Mirabelle tardive.	98 Prune, Italian, } drying. Fellemburg.	112 Sharpe's Emperor. <i>Dennyer's Victoria?</i>
82 Monroe.	99 Purple Favorite.	113 Surpassee Orleans.
83 Mulberry.	100 Quackenboss.	114 Thomas.
84 Orange, <i>very large.</i>		115 Washington.
85 Orange Egg, <i>very large.</i>		116 Winter Bolmer.

Plum Trees of the following varieties are not subject to knots in the vicinity of New York, and are probably less so in any locality than any others:—

Nos. 4, 5, 9, 10, 11, 12, 13, 14, 15, 30, 35, 36, 41, 43, 49, 53, 54, 58, 61, 63, 72, 73, 84, 85, 89, 98, 102, 115.

REJECTED PLUMS.

The Pomological Society have published a list of 31 rejected varieties, which should receive the special attention of purchasers.

DESCRIPTIONS OF PLUMS.

Autumn Gage, medium, ovate, pale yellow, juicy, sweet, pleasant, free.

Bingham, large, deep yellow, red spots next sun, juicy, rich, delicious, handsome, productive.

Bleecker's Gage, medium, ovate, yellow, sweet, rich, luscious, free.

Bradshaw, very large and showy, oval, dark purple, juicy, good flavor, tree vigorous, erect, highly productive.

Campbell's Seedling, large, greenish yellow, very productive, late, valuable for market.

Cherry, or Early Scarlet, nearly medium, round, brilliant red, subacid, juicy, not rich, second rate, cling, tree vigorous, very ornamental by its early and profuse bloom. The Golden Cherry is similar in quality. Both are free from knots on Long Island.

Coe's Golden Drop, very large, oval, pale yellow, often dotted, firm, sweet, rich, not fine grained, cling, an excellent late variety.

Coe's Late Red, or Red St. Martin, medium, roundish, light purplish red, blue bloom, firm, rich, vinous; tree vigorous, very productive, a valuable very late variety.

Columbia, very large, handsome, globular, brownish purple, blue bloom, moderately juicy, rich, good flavor, rather coarse, not first rate, free, the fruit is liable to rot, tree very productive.

Denniston's Red, medium, ovate, pale red, fawn dots, rich, good second rate flavor, free.

Denniston's Superb, medium, roundish, yellowish green, mottled with purple, not juicy, but rich, vinous, and free.

Downton Imperatrice, unusually free from the eurelio, medium, oval, pale yellow, acid becoming rather sweet, melting, valuable for preserves, ripens late.

Duane's Purple, very large, oblong oval, reddish purple, lilac bloom, moderately sweet, juicy, second rate flavor, cling, esteemed for its large size and beauty, a very profitable market fruit.

Emerald Drop, medium, long oval, yellowish green, juicy, rather rich, cling, second rate.

Fulton, medium, round, yellow, speckled, juicy, luscious, high flavor, late.

Galbraith, very estimable, early, large, oval, purple, tender, juicy, luscious, a cling.

General Hand, largest of plums, golden yellow, sweet, only moderate flavor, rather coarse, highly attractive for its size and beauty, tree remarkably vigorous, very productive.

Green Gage, the true variety is full medium, and not small as misrepresented, round, yellowish green dotted red at base, sweet, melting, aromatic, exceedingly rich. The tree is of so slow and unthrifty growth that it has been nearly abandoned; and the Imperial Gage, a seedling from it, now takes its place almost universally.

Guthrie's Apricot, large, roundish ovate, yellow, some crimson dots, juicy, sweet, moderate flavor, cling, very productive.

Highlander, large, ovate, deep blue, dotted, juicy, sugary, rich, vinous, excellent, end of September.

Huling's Superb, one of the largest, roundish, yellowish green, rather firm, sweet rich, sprightly, excellent, free, tree vigorous, large foliage.

Ickworth Imperatrice, medium or rather large, obovate, purple, sweet, juicy, rich flavor, ripens late, becomes drier and sweeter, and keeps into winter.

Italian Damask, medium, roundish, brownish violet, firm, sweet, high flavored, estimable, free, tree vigorous, productive.

Italian Prune, or Fellemburg, a most vigorous and productive tree, and unusually free from the

curculio and from knots. Fruit large, oblong, purple, handsome, estimable for dessert, and also for preserving, or drying.

Imperial Gage, large, oval, pale yellowish green, juicy, melting, rich, free, tree very vigorous, remarkably and regularly productive, better suited to all localities than any other variety. Always free from knots on Long Island. This and Italian Prune, and Guthrie's Apricot, hold their fruit better against the curculio than any others.

Imperial Milan, large, oval, deep purple, sweet, juicy, estimable.

Imperial Ottoman, medium, oval, greenish yellow marbled, sweet, very juicy, excellent, scarcely adhering, tree hardy, succeeds in Maine, exceedingly productive.

Jefferson, large, oval, greenish yellow, very juicy, rich, excellent, nearly free, one of the largest and most estimable.

Lawrence's Favorite, large, roundish, yellowish green, juicy, rich, excellent, high flavor, free.

Lombard, unusually free from the curculio, medium, ovate, violet red, pleasant flavor, not rich, but of fine quality, tree hardy, very prolific.

Long Scarlet, or Scarlet Gage, medium, oblong, yellowish red, bright red cheek, acid, juicy, rich, cling, good market fruit for preserves.

Magnum Bonum, Yellow, or Yellow Egg, very large, egg shaped, beautiful, coarse, but excellent for cooking, tree vigorous, very productive, profitable for market. The White variety differs only in being of a paler color, and the Red or Purple is so coarse it has been rejected.

Mammelonne, medium, round, greenish, red spotted, juicy, rich flavor, free.

Manning's Prune, or Long Blue, a good variety of German Prune, large, long oval, dark purple, blue bloom, firm, rather juicy, sweet, pleasant, free, very productive.

Marten's Seedling, large, deep yellow, blotched red, juicy, rich, sprightly, excellent, last of August.

McLaughlin, medium, roundish, russet yellow, tinged over with red, rather firm, sweet, juicy, excellent.

Orange, one of the largest, oval, yellow, showy, rather coarse, tree very vigorous and highly productive, a profitable market fruit, it is free from knots on this Island.

Orleans, Early, medium, ovate, reddish purple, second rate, moderate flavor.

Orleans, Smiths, large, ovate, dark reddish purple, blue bloom, juicy, rich, nearly first rate, tree very vigorous, productive in nearly all soils, shoots reddish purple, perfectly straight.

Peach, very large, roundish, varies from salmon to brownish red, juicy, sprightly, good flavor, free, rather coarse, but esteemed for its size, beauty, and early ripening, tree vigorous, productive.

Prince Englebert, oval, large, deep purple with bloom, juicy, rich, excellent flavor, freestone.

Prune d'Agen, a famous variety for drying as prunes, medium, oblong, purple, blue bloom, sweet, estimable, free, very late, profusely productive.

Purple Favorite, medium, or rather large, roundish, brownish purple, tender, juicy, sweet, excellent, free, tree grows slow.

Quackenboss, very large, fair, deep purple, juicy, exceedingly productive, very valuable for market, last of September.

Reagle's Ancient City, very large, deep yellow, carmine cheek, juicy, sugary, excellent, middle of August.

Reagle's Gage, medium, pale green, juicy, rich, luscious, late in August.

Reagle's Union Purple, large, deep purple, late, very valuable for market.

Reine Claude de Bavay, ovate, greenish yellow spotted red, rather firm, juicy, sugary, rich, excellent quality, adhering slightly, growth vigorous, very productive.

Red Gage, Prince's, medium, round ovate, brownish red, juicy, mild sweet, rich, unusually pleasant and refreshing flavor, free, tree vigorous, dark red shoots, very productive.

Royale Native, or Early Royal, medium, roundish, pale purple, dotted, blue bloom, rich, high flavor, equal to the best Gages, freestone, last of July.

Schenectady Catherine, small, roundish, deep purple violet, sweet, melting, rich, excellent, growth rather slender.

Shropshire Damson, small, same size as Winter Damson, obovate, purple, first quality for preserves; cling, tree much more vigorous than the White Damson, not so subject to knots, exceedingly productive. The Winter or Late Damson resembles this, but is very subject to knots.

Washington, very large, ovate, yellowish green with a blush, rather firm, sweet, mild, moderately rich, free, tree free of knots at Long Island.

Yellow Gage, Prince's, medium, oval, golden yellow, rich, sugary, melting, excellent, tree very vigorous and productive, and on Long Island is free from knots.

PEACHES—AMYGDALUS PERSICA.

Price, 25 cts., except where otherwise noted.

N. B.—Large quantities at very reduced prices. Trees suitable for Dwarfs or Espaliers can be supplied at 37 to 50 cts. Peaches on the Plum stock are valueless for Orchards.

S E L E C T P E A C H E S, F O R M A R K E T, E T C.

Admirable, Early, rather large, roundish, pale straw, marbled, with bright red next the sun, sweet, melting, rich flavor, a firm fruit, keeps well, and bears carriage, very productive.

Abricotée, or Yellow Admirable, very large, round, beautiful, orange color, flesh same color, pleasant Apricot flavor. A rare and estimable variety, ripening late in October, well suited to the South, but cannot mature north of this locality.

Barnard, Early (Alberge erroneously), rather large, deep yellow, red cheek, juicy, melting, good second rate, productive, inferior to Bergen's Yellow.

Barrington, large, regular oval, beautiful, pale straw, marbled with light red, very tender, sweet, very juicy, rich, and luscious, very estimable.

Bergen's Yellow, very large, roundish, deep orange, broad crimson cheek, juicy, rich, luscious, excellent, greatly esteemed.

Brevoort, medium, round, white, bright red cheek, sweet, rich, high flavor.

Cole's Early Red, medium, roundish, mottled red, bright red cheek, juicy, rich, fine flavor, early, very productive, white, bright scarlet cheek, melting, juicy, rich, faint acidity.

Coolidge's Favorite, medium, roundish, white, bright scarlet cheek, very melting, juicy, rich, faint acid flavor, much esteemed.

Crawford's Early (Melacoton), very large, oval, showy, yellow, red cheek, very juicy, faint acid, rich, good but moderate flavor, productive. A favorite market variety.

Crawford's Late (Melacoton), very large, roundish, splendid appearance, yellow, broad, deep red cheek, rich, juicy, vinous, good, but moderate flavor, productive. A very showy and favorite market variety.

Early Newington, of Downing (not Smith's Early Newington, which is a cling), an old variety renamed, medium size, roundish, white,

marbled with red, rich, red cheek, juicy, fine rich flavor, early and valuable.

Early York, Large, or George IV. (also called by many other names), large, roundish, whitish, with red dots, deep red cheek, very juicy, mild, rich flavor, excellent, greatly esteemed. Originated, by William Prince, from the Red Rare-ripe.

Early York, Serrate, medium, roundish, ovate, greenish white, dark red cheek, tender, juicy, rich, slight acidity, very productive, early.

Early White Globe, ripens immediately after the Nutmegs, medium size, round, white, sweet, good flavor, not very juicy, a favorite and peculiar variety, differing from all others that ripen at the same period.

Fox's Seedling, rather large, round, white, red cheek, sweet, juicy, estimable, ripens late.

Grosse Mignonette, a rare variety, although the name is in every catalogue, *large flowers*, fruit large, rounded, some rather ovate, pale yellow, mottled with red and yellow, deep velvety purplish red, and red about the stem, juicy, melting, sweet, very rich, vinous flavor, luscious, unsurpassed.

Heath Freestone (this is not at all similar to Kenrick's Heath, as many erroneously state), rather large, oval, greenish straw color, often slightly shaded with red near the stem, flesh white to the stone, juicy, tolerably sweet, sub-acid, not high flavored, sometimes bitterish, second rate for dessert, but makes admirable preserves.

Heath Cling, very large, oval, white, tinged red next sun, quite downy, very juicy, sweet, high, rich, excellent flavor, it must be ripened in the house in same manner as pears, and then surpasses all other peaches in flavor.

Howard's Splendid, large, oval, white, sometimes tinged with red next sun, ripens late, suited to the South.

Large White Cling, large, round, beautiful, white, light red cheek, very juicy, sweet, rich, high flavored, delicious. It is best when ripened for four or five days in the house, which is the only proper course with all Clingstones.

Late Admirable, large, roundish, pale green, pale red cheek marbled with darker red, juicy, delicate, excellent flavor.

La Grange, rather large, oval, white, seldom any tinge of red, juicy, rich, fine flavor, much esteemed, ripens late.

Lemon Cling, very large, splendid, oval, rich yellow, bright red cheek, high lemon flavor, rich, aromatic, excellent, makes admirable dumplings and preserves.

Nlyette, or Orange Free, large, ovate, pale lemon color, sometimes a faint red cheek, juicy, melting, very sweet, luscious, rich flavor, has few or no superiors.

Noblesse, large, ovate, pale green, dull red cheek, very juicy, rich, high flavor, delicious.

Oldmixon Free, large, roundish, white marked red, dark red cheek, tender, rich, luscious, excellent, very productive, a favorite market fruit.

Oldmixon Cling, large roundish oval, yellowish white dotted red, deep red cheek, juicy, rich, high flavor, productive.

Orange Melacoton, very large, splendid, round-

ish, deep yellow, broad deep red cheek, juicy, sweet, luscious, devoid of the acidity that attaches usually to yellow-fleshed peaches, a most estimable new variety.

Pavie de Pomponne, or Monstrous Pomponne, the largest of peaches, ovate, greenish yellow marbled with red, very dark red cheek, juicy, sweet, rich, fine flavor, requires a long summer to mature in this latitude, well suited to the South. Distinguishable by its broad foliage and vigorous growth. Flowers small. Nearly all sold under this name are spurious, and even Mr. Downing never saw the genuine, and states mistakenly that it has large flowers.

Pavie Tardive, or October Scarlet, small flowers, large, ovate, beautiful, pale straw, deep red cheek, sweet, juicy, excellent, very productive. It is the most valuable of all late peaches to grow for the market, but is rarely to be met with in the nurseries.

President, rather large, ovate, white, dull red cheek, very juicy, luscious, fine flavor.

Prince's Climax, large, oval, yellow, crimson cheek; flesh yellow, very rich, pineapple flavor, middle Sept.

Prince's Excelsior, very large, round, splendid, entirely bright orange color, flesh golden yellow to the stone, parts freely, sweet, very juicy, extra rich, delicious, exquisite orange flavor, none superior, a remarkable acquisition, ripens middle of October, well suited to the South.

Prince's Fortunatus, a cling, medium size, yellow, red cheek, ovate, very productive; withstands the Yellows better than almost any other variety.

Prince's Paragon, large, showy, oval, pale yellow, slightly red shaded cheek, juicy, rich, luscious, fine flavor. An erroneous variety is often sold under this name.

Rareripe, Golden, large, yellow, red cheek, juicy, rich, good flavor, handsome.

Rareripe, Morris' Red, rather large, white, dark red cheek, juicy, rich, high flavored, excellent.

Rareripe, Prince's Red, later than the preceding, large down to medium, roundish, pale yellow, partially reddened next sun, sweet, juicy, rich, very luscious, first quality.

Rareripe, Morris' White, medium, roundish, white, sometimes purple tinge on cheek, juicy, melting, rich flavor, much esteemed.

Rareripe, Yellow (Yellow Alberge of some), large, roundish oval, deep orange, rich red cheek, mealy, without juice until fully ripe, then sweet, juicy, rich, good flavor, second rate,

Red Cheek Melacoton, large, ovate, yellow, deep red cheek, juicy, rich, luscious flavor, very productive, estimable for market.

Scott's Magnate (Rareripe), very large, splendid, roundish, oblate, whitish, deep red cheek, flesh white, juicy, excellent, a new and very beautiful variety.

Scott's Nectar (Rareripe), large, roundish, whitish, bright red cheek, flesh white, very sweet, delicious flavor, a beautiful and excellent new variety.

Scott's Nonpareil, large, roundish, deep yellow, red cheek, flesh yellow, sweet, juicy, and fine

flavor, resembles Crawford's Late, but far superior in quality.

Snow, small white blossoms, fruit white, rather large, globose, melting, juicy, sweet, rich, sprightly.

Strawberry, or Rose, medium, oval, mostly marbled with deep red, melting, rich fine flavor, early.

Stamp the World, large, ovate, white, red cheek, juicy, rich, fine flavor, productive, a favorite market fruit.

Tippecanoe, a Lemon Cling variety, very large, ovate, yellow, red cheek, flesh yellow, juicy, good vinous flavor, end of Sept.

Van Zant's Superb, medium, oval, white beautifully mottled with red, sweet, juicy, fine flavor. A spurious *round* variety is almost universally disseminated by this name.

Washington Cling, medium, roundish, yellowish green, tinge of red on cheek; flesh very juicy, very sweet, luscious flavor, end of Sept.

NEW AND RARE PEACHES.

FREESTONES—*White Flesh.*

Baldwin's Late, large, oblong, white, red cheek, firm, melting, good flavor, October.

Baugh, medium, globose, straw white, with blush, melting, sweet, pleasant, Oct.

Columbus June, large, straw white, red cheek, melting, high flavor, excellent, July.

Edward's Late White, large, roundish, white, red cheek, sweet, juicy, excellent flavor, Oct.

Gorgas, rather large, roundish, straw white, shaded red cheek, saccharine, exceedingly luscious.

Hative de Ferrieres, medium, roundish, white nearly covered with red, melting, sweet, rich, vinous flavor, end of August.

Honey, new, one of the most delicious.

Jane, very large, roundish, straw white, red cheek, melting, delicious, end of Sept.

Lady Parham, large, roundish, straw white, downy, firm, rich, vinous flavor, excellent, Oct.

Moore's June, under medium, globose, yellow marbled with red, juicy, vinous, very pleasant, July.

Montgomery's Late, large, round, straw white, red cheek, downy, very melting, excellent flavor, Sept.

President Church, large, roundish ovate, pale red, mottled dark red, very melting, delicious flavor, an important acquisition, Sept.

Pride of Autumn, large, oblong, white, red cheek, firm, melting, high flavor, end of Oct.

FREESTONES—*Yellow Flesh.*

Canary, medium, ovate, bright, yellow, very melting, very rich Apricot flavor, early in Aug.

Mrs. Poinsett, large, globose, straw white, brown and red cheek, melting, excellent flavor, August.

Owen, large, round, rich yellow, purplish red cheek, very melting, delicious saccharine subacid flavor, middle Sept.

Susquehanna, very large, globose, melting, sweet, rich vinous flavor, early Sept.

CLINGSTONES OR PAVIES.

Blanton, large, oblong, rich orange, slight red cheek, flesh yellow, firm, profuse, vinous juice, delicious, superior to Lemon Cling, August.

Bordeaux, large, oblong, pale yellow, red cheek; flesh yellow, melting, excellent vinous flavor, one of best, August.

Chinese, large, globose, creamy white, marbled red; flesh white, very melting, excellent vinous flavor, early Sept.

Donahoo, very large, roundish, creamy white, tinged red cheek; flesh white, exceedingly juicy, equally as rich and luscious as the Heath Cling and more tender, a great acquisition, end of Sept.

Elmira, large, oval, greenish yellow, downy; flesh white, sweet, good, end of August.

Flewellen, large, globose, straw white, over-spread with red shades, purplish red cheek;

flesh pale straw, sweet, very melting, high flavored, very desirable, end August.

Horton's Delicious, large, roundish ovate, creamy white, faint blush cheek; flesh white, melting, delicious, same flavor as Heath Cling, Oct.

Hull's Athenian, very large, oblong, straw white, marbled red cheek; flesh white, rather firm, rich, high, vinous perfumed flavor, a great acquisition, Oct.

Jackson, large, oblong, dark yellow, deep red cheek; flesh orange, juicy, rich, sprightly, delicious, one of best, Sept.

Stephenson, large, roundish, very downy, creamy white, flesh-colored cheek; flesh white, very melting, delicious, vinous flavor, one of best, middle Oct.

SELECT FIGS—FIGUIERS.

The culture of this delicious fruit has recently become an object of particular attention, and the Trees require no more care or protection in winter than the delicate kinds of Grapes, and can be grown at Baltimore, and South of it, in any quantities for market; and we may soon expect the markets of New York and other Northern cities to be supplied from the more Southern localities. The Trees are exceedingly productive and produce two regular crops in a season. We have rejected a number of varieties, such as Cypré, Clementine, &c., which have been found the least worthy of culture.

Those marked †, 50 cents. Those not marked are 75 cents. By the hundred, a discount of one third in price will be made; and where 25 or more are taken, 25 per cent. discount. When a dozen are taken of 6 varieties, 2 each, the price will be \$4.50.

1 Adam's Fig, enormous size	\$2.	13 †Golden, Large. — Jaune grosse.	28 †Napolitaine, or Naples, twice bearing.
1½ Allen's Large late White, extra hardy.		14 Grosse Longuette.	29 †Nervi, exquisite.

			42 †White Genoa, large.
			43 †Yellow, or Golden.
			44 Violette de Bordeaux.
			45 Ronde Violette hative.

POMEGRANATES—GRENADIERS.

This fruit requires in this latitude that the trees should be well bound with straw, or have a temporary frame of boards over them. All produce fruit except the double flowering varieties.

1 Fruit bearing.....	\$.050	10 White flowering and fruited.....	.75
2 Large Malta.....	1.00	11 Double white flowering.....	.75

4 Spanish.....	1.50	13 Double yellow flowering.....	1.00
5 Desportes, or Hybrida.....	1.50	14 Dwarf profuse flowering, Fruit bearing	.50
6 Provence, large fruit.....	1.50	15 Large seedless.....	1.50
7 Double Crimson.....	50	16 Chinese double variegated, scarlet and white, large and splendid.....	1.50
8 Royal double Crimson (Regalis).....	1.00	17 Desfontaines, fine fruit.....	1.50
9 Prolifie.....	1.50		

RASPBERRIES—FRAMBOISIERS.

All the varieties are red except those designated otherwise, and all mature their fruit in July except the Twice Bearing kinds, and they produce a second crop in September or October. In order to have an ample crop of autumnal fruit, it is necessary to prune off the old shoots entirely in February or beginning of March, as the autumnal fruit is produced entirely on the shoots of the same year. There are no Monthly Raspberries; but only Twice Bearing ones. The leading varieties can be supplied by the hundred or thousand at reduced rates.—N. B. Any number less than a dozen will be charged higher.

	Per Doz.	Per 100.	Per Doz.	Per 100.
1 American Red Prolific— <i>English Red</i> erroneously, fine flavor, very productive, long red shoots, never winter-killed.....	1 25	8 00	20 Chilian Red, <i>large, late, acidulous</i>	2 50 16 00

SCIONS FOR ENGRAFTING AND CUTTINGS.

Scions of all kinds of Fruit Trees, suitable for grafting, will be supplied when 40 or more kinds are ordered, more or less of each, as convenient to us, at 25 cents per parcel, or at 50 cents per dozen grafts of each variety where the price of a tree does not exceed that sum (50 cents); but where it does, the same price will be charged for the dozen scions, or for a parcel where the kind is very rare, as for a tree of the same kind. When a large number of scions are wanted, of the leading varieties, they will be supplied at \$1 50 per 100, or at the following rates per 1000, all correctly labeled: Apples, \$5, Pears, \$6, Cherries, \$6, Plums, \$10.

Scions of Anger's Quince, for budding Pears on, \$1 50 per 100, and \$10 per 1000, and Scions of the plentiful kinds of Currants, Gooseberries, Raspberries, Berberries, Mulberries, Poplars, Willows, Altheas, Roses, and of all other Trees and Shrubs that will grow from cuttings, \$2 50 per 100 and \$20 per 1000, and Figs and Pomegranates \$5 to \$8 per 100; but no quantity is sent amounting to less than the price of a Tree or Shrub of the same kind. Scions of the eight finest species of Osiers, most celebrated for baskets, &c., \$1 per 100 and \$2 to \$5 per 1000. It better that such orders be sent in the fall or winter; and the scions can be forwarded by express if so ordered.

Scions of Grapes, of a number of the finest Foreign kinds, can be supplied if applied for in season, at from \$4 to \$8 per 100, or in less quantities; but in no case will scions of any variety be sent to a less amount than the price of a vine; and of the very rare varieties three scions or eyes, and of others six scions or eyes of any one variety will be considered equivalent in value to a vine. Scions of Isabella, Catawba, Clinton, and several other varieties of Grapes, \$2 per 100, or \$8 to \$12 per 1000.

ORANGE, LEMON, CITRON, SHADDOCK, and LIME TREES, and all other GREEN HOUSE TREES and PLANTS, can be supplied at reasonable rates.

PREFERABLE DISTANCE FOR PLANTATIONS OF TREES.

Standard Apples—30 feet distant each way.	Pyramidal Apples, Pears, Cherries, and Plums, and Dwarf Pears, 8 feet.
Standard Pears, and Cherries, 20 feet.	Dwarf Apples, 6 feet.
Standard Peaches, Plums, Apricots, and Necta- rines, 12 feet.	Gooseberries, and Currants, 3 to 4 feet.
Quinces, 8 to 10 feet.	

The number of Trees requisite for an Acre, at certain distances.

SELECT FRUIT CATALOGUE, ADOPTED BY THE AMERICAN POMOLOGICAL SOCIETY.

At their Session held at New York, September, 1858.

APPLES—for General Cultivation.

American Summer Pearmain.	Hawley.	Rambo.
Autumn Bough.	High Top Sweeting.	Red Astrachan.
Baldwin.	Hubbardston Nonsuch.	Rhode Island Greening.
Benoni.	Jonathan.	Roxbury Russett.
Bullock's Pippin.	Lady Apple.	Smith's Cider.
Carolina June.	Ladies' Sweet.	Summer Rose.
Danvers Winter Sweet.	Large Yellow Bough.	Swaar.
Early Harvest.	Melon.	Vandervere.
Early Strawberry.	Minister.	Wagener.
Fall Pippin.	Monmouth Pippin.	William's Favorite.
Fameuse.	Porter.	Wine or Hays.
Gravenstein.	Primate.	Wine Sap.

APPLES—which promise well.

Broadwell.	Genesee Chief.	Smoke House.
Buckingham.	Jeffries.	White Winter Pearmain.
Coggswell.	King of Tompkins County.	Winter Sweet Paradise.
Fornwader.	Mother.	Lincoln Pippin.

APPLES—for Particular Localities.

Canada Red.	Newtown Pippin.	Yellow Bellefleur.
Esopus Spitzemburgh.	Northern Spy.	

PEARS—for General Cultivation. (Standard.)

Ananas d'Eté.	Cabot.	Manning's Elizabeth.
Andrews.	Dearborn's Seedling.	Onondaga.
Bartlett.	Doyenné d'Eté.	Osbard's Summer.
Beurré d'Anjou.	Doyenné Boussoc.	Paradise d'Automne.
Beurré d'Aremberg.	Doy-uné d'Alençon.	Rostiezer.
Beurré Diel.	Flemish Beauty.	Seckel.
Beurré Bosc.	Fondante d'Automne.	Shelden.

May Duke.
Reine Hortense.

CHERRIES—which promise well.

American Amber.
Bigarreau de Mezel.
Black Hawk.

Large Proul, or Great Bigarreau.
Rockport.
Hovey.

Kirtland's Mary..
Ohio Beauty.
Black Bigarreau of Savoy.

Ornamental Department.

SELECT DECIDUOUS ORNAMENTAL TREES.

THE following comprise a *Select Assortment* of the most beautiful and estimable species, which our long experience has enabled us to arrange with precision. The inferior species we have omitted.

We have divided them into four classes. The first class comprises those of majestic growth, which attain great stature and ample development; the second class, those which attain a medium size; the third class, those of low stature; and the fourth class, such as are comparatively of slow growth, requiring a long period before they attain the size of a small tree, and which, therefore, it would be more appropriate, in ornamenting grounds, to rank among large Shrubs.

The prices stated are for trees of fair size; but where extra large-sized trees are desired for Streets, Avenues, &c., in order to impart immediate ornament, such can be supplied at proportionate rates, varying in height from ten to twenty feet, of many of the most estimable species.

Botanical Name.

Common Name.

Class.

Price.

<i>Acer.</i>	<i>Maple.</i>		
1 <i>Acer dasycarpum</i> .	Silvery-leaved.....	1	35 to 50
	Ditto, large, 12 to 14 feet.....	1	75 to 1 00

63 <i>Fraxinus sambucifolia</i> .	Ash, Black.	1	50
64 <i>Fraxinus viridis</i> .	Ash, Green.	3	75
65 <i>Gleditschia triacanthos</i> .	Honey Locust .	1	25 to 38
66 <i>Gleditschia smenias</i> .	Chinese do.	2	50
67 <i>Gymnocladus canadensis</i> .	Kentucky Coffee .	2	30 to 50
68 <i>Halesia</i> . (See Deciduous Ornamentl. Shrubs).			
69 <i>Juglans</i> .	Walnut . (See page 24).		
70 <i>Koelreuteria paniculata</i> .	Koelreuteria , Japan panicled.	3	38
71 <i>Larix europea</i> .	Larch , European Drooping.	1	35 to 50
72 <i>Larix tyrolensis</i> .	Larch, Tyrolese.		60
73 <i>Larix Mierocarpa</i> .	Larch, American.	2	25
74 <i>Laurus sassafras</i> .	Sassafras .	2	25
75 <i>Liquidambar styraciflua</i> .	Sweet Gum, Maple leaved.	1	50
76 <i>Liriodendron tulipifera</i> .	Tulip tree, or Whitewood.	1	30 to 50
77 <i>Maclura aurantiaca</i> .	Osage Orange , male and female.	2	25
78 <i>Magnolia acuminata</i> .	Magnolia, Blue flowering.	1	50
79 <i>Magnolia auriculata</i> .	Magnolia, Auriculate, white fragrant.	2	1 to 2 00
80 <i>Magnolia conspicua</i> .	Magnolia, Chinese splendid White.	3	1 to 2 00
	Ditto, large and splendid trees 6 to 10 feet.		5 to 10 00
81 <i>Magnolia Alexandrina</i> .	Magnolia, Alexandrian, Crimson striped, twice blooming.		3 1 50 to 3 00
82 <i>Magnolia amabilis</i> .	Lovely, white fragrant.	3	5 00
83 <i>Magnolia Norbertiana</i> .	Magnolia, Norbert's, deep striped.	3	2 to 3 00
84 <i>Magnolia Soulangeana</i> .	Magnolia, Soulange's Pink striped.	3	1 to 2 00
85 <i>Magnolia Speciosa</i> , or <i>Striata</i> .	Magnolia, Splendid striped.	3	1 50 to 2 00
86 <i>Magnolia Superba</i> .	Magnolia, Superb striped.	3	1 50 to 2 00
87 <i>Magnolia longifolia</i> .	Long leaved Glaucescent.	2	1 00
N. B.—The above five <i>Magnolias</i> are twice flowering.			
88 <i>Magnolia cordata biflora</i> .	Magnolia, Yellow twice-flowering.	2	1 00 to 2 00
89 <i>Magnolia glauca</i> .	Magnolia, Glaucous Fragrant.	3	30 to 50
90 <i>Magnolia macrophylla</i> .	Magnolia, Largest flowered, white; crimson center.	2	1 to 2 00
	Do do, splendid trees, 6 to 10 feet	3 to 6 00	
91 <i>Magnolia tripetala</i> .	Magnolia, Umbrella-leaved.	2	50
N. B.—Extra large <i>Magnolia</i> trees at proportionate prices.			
N. B.—For other <i>Magnolias</i> , see Deciduous Ornamental Shrubs, and Evergreens.			
92 <i>Melia azederach</i> .	Pride of India .	2	1 00
92½ <i>Mespilus</i> .	Medlar. (See page 25).		
93 <i>Morus</i> .	Mulberry. (See page 24).		
93½ <i>Negundo fraxinifolia</i> .	Negundo , Ash leaved.	2	38
94 <i>Negundo violacea</i> .	Negundo, Californian Violet.	2	1 00
95 <i>Ornus europeus</i> .	Ornus , or White fringe.	2	50
96 <i>Ornus latifolia</i> .	Ornus, Broad-leaved Fringe.	2	1 00
97 <i>Ostrya virginica</i> .	Hoptree.	2	50
98 <i>Paulownia imperialis</i> .	Paulownia , Imperial.	2	50 to 75
99 <i>Platanus occidentalis</i> .	Buttonwood , or <i>Sycamore</i> .	1	30
100 <i>Platanus orientalis</i> .	Oriental Plane .	1	30 to 50

Botanical Name.	Common Name.	Class.	Price.
101 <i>Platanus Californica</i> .	<i>Californian</i> Clustered-balled Plane.	1	1 00
102 <i>Populus auripila</i> .	Abele, Snowy Maple-leaved.	1	50
103 <i>Populus balsamifera</i> .	<i>Poplar</i> , Balsam, or Taemahac.	1	30
104 <i>Populus fastigiata</i> .	Poplar, Lombardy.	1	30
105 <i>Populus graeca</i> .	Poplar, Athenian.	1	50
106 <i>Populus grandidentata</i> .	Poplar, Great Dentated.	1	50
107 <i>Populus laevigata</i> .	Poplar, Cotton tree, very lofty, broad-leaved, splendid foliage.	1	50 to 1 00
108 <i>Populus tremula</i> .	Poplar, European Aspen.	1	30
110 <i>Prunus</i> .	<i>Plum</i> , Double flowering. (See p. 16).		
111 <i>Pyrus</i> or <i>Sorbus Americana</i> .	Mountain Ash, American.	2	30 to 50
112 <i>Pyrus aucuparia</i> .	Mountain Ash, European.	2	25 to 50
113 <i>Pyrus fructu aurea</i> .	Mountain Ash, Golden fruited.	2	50
114 <i>Pyrus Domestica</i> .	Service tree, or Sorb.	2	50
114½ <i>Pyrus communispleno</i> .	Apple, Double flowering. (See page 4).		
115 <i>Quercus Cerris</i> .	Pear, do do.		
116 <i>Quercus Californica</i> .	Oak, Turkey.	2	25 to 50
117 <i>Quercus laurifolia</i> .	Oak, Californian Colossal.	1	2 00
118 <i>Quercus Lucombeana</i> .	Oak, Laurel-leaved.	1	1 00
118½ <i>Quercus macrocarpa</i> .	Oak, Lucombe's.	3	1 00
119 <i>Quercus peduncularis</i> .	Oak, Mossy cup.	1	25 to 50
120 <i>Quercus phellos</i> .	Oak, Long peduncled.	1	1 00
121 <i>Quercus robur</i> .	Oak, Willow-leaved.	1	50
	Oak, English Royal.	1	25

N. B.—A Collection of American Oaks at low rates by 100.

123 <i>Rhus cotinus</i> .	Purple Fringe, Smoke tree, or Jupiter's beard.	3	50
124 <i>Robinia pseudacacia</i> .	Yellow Locust.	1	25
125 <i>Robinia viscosa</i> .	Acacia, Blush flowering.	3	35
126 <i>Robinia spectabilis</i> .	Acacia, White do	2	75
127 <i>Salisburia adiantifolia</i> .	Japan Gingko tree, splendid, with very unique foliage and of rapid growth	1	1 00
	Ditto. Extra Large, 4 to 15 feet.	2	to 10 00
128 <i>Salix alba</i> .	Willow, White or Huntingdon.	1	38
129 <i>Salix argentea</i> .	Willow, Californian Silvery.	2	1 00
	Salix Babylonica, see Weeping Trees.		
130 <i>Salix caprea pendula</i> .	Weeping Goat Willow.	3	1 00
131 <i>Salix purpurea</i> .	Willow, Purplish twigg'd.	2	25
132 <i>Salix Sacramentis</i> .	Willow, Californian Broad-leaved.	1	1 00
133 <i>Salix vitellina</i> .	Willow, Golden.	1	20
134 <i>Salix</i> .	Willow, Comewell, a good Osier.	2	25

N. B.—For other Willows, see Osiers.

135 <i>Sophora japonica</i> .	.Sophora, Japan.	3	50
137 <i>Taxodium distichum</i> .	Cypress, American.	1	25 to 50
138 <i>Taxodium sioensis</i> .	Cypress, Chinese.	1	1 00
139 <i>Tilia Americana</i> .	Linden, American Basswood.	1	40
140 <i>Tilia argentea</i> .	Linden, Silver-leaved.	1	75 to 1 00
142 <i>Tilia aurea</i> .	Linden, Golden twigg'd.	1	38 to 75
143 <i>Tilia heterophylla</i> .	Linden, Maple, or Cut-leaved.	2	75
144 <i>Tilia macrophylla</i> .	Linden, Umbrella-leaved.	1	50 to 1 00
145 <i>Tilia platyphylia</i> .	Linden, European.	1	50
146 <i>Tilia rubra</i> .	Linden, Red-twigg'd.	1	38 to 1 00
147 <i>Ulmus Americana</i> .	Elm, American Weeping.	1	40 to 75
148 <i>Ulmus campestris</i> .	Elm, English pyramidal.	1	38
151 <i>Ulmus fulva</i> .	Elm, Red, or Slippery.	1	50
152 <i>Ulmus montana</i> .	Elm, Scotch, or Wych.	1	38
154 <i>Ulmus suberosa</i> .	Elm, Dutch Cork-barked.	1	50

N. B.—Twelve other varieties can be supplied.

155 <i>Virgilia lutea</i> .	Yellow-wooded Virgilia.	2	1 00
-----------------------------	-------------------------	---	------

SELECTIONS OF ORNAMENTAL TREES, ETC.

The Trees most suitable for planting in Streets and Avenues are the Silver, Norway, and Sugar Maples, European Sycamore, the various Elms, Ohio Buckeye, with dark glossy foliage, Paulownia, Oriental Plane, Snowy Abelia, the beautiful Salisburia of Japan, Tulip tree, *Magnolia acuminata* and *maxima*, American Cypress, European Ash, Red-twigs Linden, and Silver leaved Linden.

The common variety of European Linden, and the common Horse Chestnut, drop their foliage so early in autumn that they are entirely unsuited for streets, but will answer for other locations. The Catalpa forms too spreading and irregular a head for planting in streets. The European Alder will best suit any wet locality. The Ailanthus has latterly fallen into disrepute on account of the odor of its blossoms; an evil easily remedied, however, by proper selection, as the odor proceeds only from one sex, latterly introduced, and therefore this objection does not apply at all to the tree originally introduced, which was of the other sex.

All the above-named trees are appropriate for extensive Lawns, to which may be added the Weeping Willow, one of the most elegant and graceful of all trees, and the Ring-leaved Weeping, the Huntingdon Green, and the Golden bark and Silvery-leaved Willows to aid in the picturesque. The Liquidamber and Scarlet Maple are desirable not only for general ornament, but for their reddening foliage in early Autumn, thereby imparting a most pleasing diversity. The trees I have enumerated are not suitable for ordinary small yards and other circumscribed positions; and for that object, we should select trees of secondary stature, such as the Mountain Ash, *Magnolia tripetala*, *Macrophylla*, and *Auriculata*, White Fringed Ornus, Laburnum, Japan Angelica, European Bird Cherry, Blush Acacia, and *Virgilia lutea*.

We come next to the third Class of Trees, which may be more properly ranked as large Shrubs, as they branch low, and to the largest class of Flowering Shrubs, all of which may be pruned to suit the space to be occupied; such as the *Magnolia Nobriana*, beautifully striped, the *M. Soulangeana* with paler stripes, *M. Glauca* and *Conspicua* with white flowers, and the Japan Purple, and Chinese Purple and White Flowering, the Halesia, Purple Fringe, Japan Sophora, Hawthorn, Cornelian Cherry, Silvery Eleagnus, European Euonymus, the beautiful varieties of Double Althea, *Rhamnus carolinus*, &c. These will serve to fill up the complement in adornment.

DECIDUOUS ORNAMENTAL SHRUBS.

The following comprises a *Select Assortment* of the most beautiful and estimable species. The inferior species are omitted. N. B.—Extra large Shrubs of most of the kinds can be supplied at proportionate prices.

Botanical Name.	Common Name.	Price.
1 <i>Acacia Julibrissin</i>	Sensitive tree.....	40 to 75
2 <i>Amelanchier botryapium</i>	Mespilus, Snowy flowered.....	38
3 <i>Amelanchier arbutifolia</i>	Mespilus, Scarlet-berried.....	50
4 <i>Amorpha fruticosa</i>	Indigo Srbub.....	25
5 <i>Amorpha canescens</i>	Indigo Shrub, Hoary.....	25
6 <i>Amygdalus</i>	Almond, Flowering. (See page 24.)	
7 <i>Audromeda paniculata</i>	Andromeda, paniced.....	50
8 <i>Audromeda racemosa</i>	Andromeda, Racemed.....	50
9 <i>Audromeda pulverulenta</i>	Andromeda, Splendid, and others.....	75
10 <i>Artemesia abrotanum</i>	Southernwood, or Citronelle.....	25

Botanical Name.	Common Name.	Price.
15 <i>Azalea nudiflora</i> .	<i>Azalea</i> , Pink colored.	38
16 <i>Azalea viscosa</i> .	<i>Azal-a</i> , White fragrant.	50
17 <i>Azalea Californica</i> .	<i>Azalea</i> , Californian.	2 00
18 <i>Azalea aurantiaca</i> .	<i>Azalea</i> , Orange-colored.	1 00
19 <i>Azalea Belgica</i> .	<i>Azalea</i> , Belgic, of 30 splendid named varieties, \$9 per dozen.	75 to 1 00
20 <i>Azalea coccinea major</i> .	<i>Azalea</i> , large Scarlet.	1 00
21 <i>Azalea Calendulacea</i> .	<i>Azalea</i> , Calendulacea, 12 splendid varieties.	50 to 1 00
22 <i>Azalea tricolor</i> .	<i>Azalea</i> , Tricolored.	1 00
23 <i>Azalea Pontica</i> .	<i>Azalea</i> , Pontic Yellow.	50
24 <i>Azalea</i> do	<i>Azalea</i> , Pontic, 6 fine varieties.	75

N. B.—A Special List of the Collection of Azaleas will be sent to Amateurs.

25 <i>Baccharis halimifolia</i> .	Snow-drift tree.	50
26 <i>Benthamia fragrifera</i> .	<i>Benthamia</i> , Strawberry fruited.	75
27 <i>Berberis emarginata</i> .	<i>Berberry</i> , Marginate.	50
28 <i>Berberis nepalensis</i> .	<i>Berberry</i> , Nepal.	25
29 <i>Berberis sibirica</i> .	<i>Berberry</i> , Siberian.	50
30 <i>Berberis wallichiana</i> .	<i>Berberry</i> , Wallich's.	25

N. B.—See other Species, page 29, and among Evergreen Shrubs.

31 <i>Buxus ligustrina</i> .	<i>Buxus</i> , Privet leaved.	60
32 <i>Buxus acuminata</i> .	<i>Buxus</i> , Acuminate.	50
33 <i>Buddleia Lindleyana</i> .	<i>Buddleia</i> , Lindley's.	25
34 <i>Callicarpa japonica</i> .	<i>Callicarpa</i> , Japan.	75
35 <i>Calycanthus levigatus</i> .	Sweet-scented Shrub, purple.	25
	Ditto, larger size.	50
36 <i>Calycanthus floridus</i> .	Sweet-scented shrub, Downy-brown flow'd.	25
37 <i>Calycanthus glaucus</i> .	Sweet-scented shrub, Glaucaus-leaved Red.	25
38 <i>Calycanthus Pennsylvanicus</i> .	Sweet-scented shrub, Pennsylvanian purple.	38
39 <i>Calycanthus semperflorens</i> .	Sweet-scented shrub, Monthly flowering.	75
40 <i>Calycanthus viridis</i> .	Sweet-scented shrub, Green flowering.	1 00
41 <i>Calycanthus macrophyllus</i> .	Sweet-scented shrub, Californian large, twice blooming.	50
42 <i>Caragana arborescens</i> .	Siberian Pea tree.	50
43 <i>Caragana chamalagi</i> .	<i>Caragana</i> , Chinese.	50
44 <i>Caragana grandiflora</i> .	<i>Carag-na</i> , Great Flowered.	50
45 <i>Ceanothus Americanus</i> .	New Jersey tea.	25
46 <i>Cephaelanthus occidentalis</i> .	White Globe flower.	25
47 <i>Ceratonia siliqua</i> .	Carob tree.	75
48 <i>Cercis japonica</i> .	Judas tree, Japan, <i>splendid</i> .	2 00
49 <i>Cercis variegata</i> .	Judas tree, variegated-leaved.	2 00
50 <i>Chimonanthus fragrans</i> .	<i>Japan Alspice</i> .	50 to 1 00
50½ <i>Clerodendron Bungeana</i> .	Clerodendron, Chinese, beautiful, new.	1 00
51 <i>Clerodendron Kempferii</i> .	Clerodendron, Japan, beautiful, new.	1 00
51½ <i>Clethra alnifolia</i> .	<i>Clethra</i> , Fragrant.	25
52 <i>Clethra acuminata</i> .	<i>Clethra</i> , Acuminate-leaved.	25
55 <i>Colntea arborescens</i> .	<i>Bladder Senna</i> , Yellow.	20
56 <i>Colutea Alepica</i> .	Bladder Seuna, Aleppo orange.	25
57 <i>Colutea cruenta vel orientalis</i> .	Bladder Senna, Oriental Red.	38
58 <i>Corchorus</i> , see Kerria.		
59 <i>Coriaria myrtifolia</i> .	<i>Coriaria</i> , Myrtle-leaved, beautiful foliage.	25
60 <i>Cornus sanguinea</i> .	<i>Dogwood</i> , Red twig.	20
61 <i>Cornus stricta, variegata</i> .	Dogwood, Silver-striped.	50
62 <i>Cornus mascula</i> .	<i>Cornelian Cherry</i> , Scarlet.	50
63 <i>Cornus fructu lutea</i> .	<i>Cornelian Cherry</i> , Golden.	50
63½ <i>Cornus mascula variegata</i> .	<i>Cornelian Cherry</i> , variegated.	75
64 <i>Coronilla emerus</i> .	<i>Scorpion Senna</i> .	25
65 <i>Cotoneaster acuminata</i> .	<i>Cotoneaster</i> , Acuminate.	50
66 <i>Cotoneaster affinis</i> .	Cotoneaster, Affinitive.	50
67 <i>Cotoneaster rotundifolia</i> .	Cotoneaster, Round-leaved.	50
68 <i>Crataegus oxyacantha</i> .	<i>Hawthorn</i> , English.	25 to 50
69 <i>Crataegus, alba plena</i> .	<i>Hawthorn</i> , Double white.	50 to 75
70 <i>Crataegus, rubra plena</i> .	<i>Hawthorn</i> , Double crimson.	75
71 <i>Crataegus, monogyna rosea</i> .	<i>Hawthorn</i> , Pink.	50 to 75
72 <i>Crataegus, punicea</i> .	<i>Hawthorn</i> , Crimson.	50 to 75
73 <i>Crataegus, variegata</i> .	<i>Hawthorn</i> , Variegated-leaved.	75

N. B.—Also, 10 other species which are but little ornamental.

Botanical Name.	Common Name.	Price.
74 <i>Cydonia</i> (<i>Pyrus</i>) <i>Japonica</i> .	<i>Quince</i> , Japan scarlet flowering.....	25 to 50
75 <i>Cydonia alba</i> .	Quince, Japan white or blush.....	50
76 <i>Cydonia umbicillata rosea</i> .	Quince, Japan roseate, many fruit.....	1 00
77 <i>Cydonia atrosanguinea</i> .	Quince, Japan crimson.....	1 00
78 <i>Cydonia aurantiaca</i> .	Quince, Japan orange.....	1 50
81 <i>Cydonia rubra pleno</i> .	Quince, Japan Double scarlet.....	1 00
82 <i>Cydonia Maillardii</i> .	Quince, Maillardii.....	1 00
83 <i>Cyrilla racemiflora</i> .	<i>Cyrilla</i> , Racemed.....	75
84 <i>Cytisus capitatus</i> .	<i>Cytisus</i> , Cluster flower.....	25
85 <i>Cytisus sessilifolius</i> .	<i>Cytisus</i> , Sessile-leaved.....	30
86 <i>Cytisus scoparius</i> .	<i>Scotch Broom</i>	25
	Ditto, large size.....	50
87 <i>Daphne mezereum</i> .	<i>Mezereon</i> , Pink.....	50
87½ <i>Daphne album</i> .	Mezereon, White.....	50
88 <i>Deutzia corymbosa</i> .	<i>Dentzia</i> , Co ^r ybose.....	50
88½ <i>Deutzia Californica</i> .	<i>Deutzia</i> , Californian.....	1 00
89 <i>Deutzia canescens</i> .	<i>Deutzia</i> , Hoary-leaved.....	50
89½ <i>Deutzia crenata</i> .	<i>Deutzia</i> , Crenate-leaved.....	25 to 50
90 <i>Deutzia virgata</i> .	<i>Deutzia</i> , Twiggy.....	50
90½ <i>Deutzia gracilis</i> .	<i>Deutzia</i> , Graceful, neat.....	25 to 50
91 <i>Deutzia scabra</i> .	<i>D</i> - <i>utzia</i> , Scabrous, beautiful.....	25
92 <i>Deutzia staminea</i> .	<i>Deutzia</i> , Large stamened.....	25 to 50
93 <i>Deutzia undulata</i> .	<i>Deutzia</i> , Waved-leaved.....	50
94 <i>Diervilla lutea</i> .	<i>Honeysuckle</i> , Acadian.....	30
95 <i>Dirca palustris</i> .	<i>Leatherwood</i>	50
96 <i>Edgeworthia chrysanthia</i> .	<i>Edgeworthia</i>	1 00
98 <i>Elaeagnus Japonicus</i> .	Japan Oleaster.....	50
99 <i>Euonymus Americanus</i> .	<i>Strawberry Tree</i> , American R-d.....	25 to 38
100 <i>Euonymus atropurpureus</i> .	Strawberry Tree, Crimson fruited.....	38
101 <i>Euonymus Europeus</i> .	Strawberry Tree, European Scarlet.....	38
102 <i>Euonymus ardens</i> .	Strawberry Tree, Bright Scarlet.....	50
103 <i>Euonymus fructu albo</i> .	Strawberry Tree, White fruited.....	50
104 <i>Euonymus atrorubens</i> .	Strawberry Tree, Deep Red fruited...	75
105 <i>Euonymus pallidus</i> .	Strawberry Tree, Pink fruited.....	75
106 <i>Euonymus purpureus</i> .	Strawberry Tree, Purple fruited.....	75
107 <i>Euonymus nanus</i> .	Strawberry Tree, Dwarf, Red fruit...	38
108 <i>Euonymus angustifolius</i> .	Strawberry Tree, Narrow-leaved.....	50
109 <i>Euonymus latifolius</i> .	Strawberry Tree, Broad-leaved, large fruit	25 to 50
110 <i>Euonymus hamiltonius</i> .	Strawberry Tree, Deep crimson.....	1 00
110½ <i>Euonymus linifolius</i> .	Flax-leaved.....	25 to 50
111 <i>Euonymus obovatus</i> .	Strawberry Tree, Obovate-leaved.....	50
112 <i>Euonymus sarmentosus</i> .	Strawberry Tree, Dwarf trailing.....	50
113 <i>Euonymus verrucosus</i> .	Strawberry Tree, Warted barked.....	50
114 <i>Euonymus pendula</i> .	Strawberry Tree, Weeping.....	1 00
115 <i>Foutanesia phyllyreoides</i> .	<i>Foutanesia</i> , Syrian.....	50
116 <i>Forsythia viridissima</i> .	Japan Golden Bell, or Trinket flower.....	25 to 38
116½ <i>Forsythia suspensa</i> .	Forsythia, Drooping Yellow.....	1 00
117 <i>Fortunaea sinensis</i> .	<i>Fortunaea</i> , Chinese.....	1 00
118 <i>Fothergilla alnifolia</i> .	<i>Fothergilla</i> , Fragrant.....	38
121 <i>Genista tinctoria</i> .	<i>Broom</i> , Dyer's.....	30
122 <i>Genista flore pleno</i> .	<i>Broom</i> , Double Dyer's.....	50
123 <i>Gordonia pubescens</i> .	<i>Franklinia</i>	1 00
124 <i>Halesia tetrapetala</i> .	Silver Bell, or Snowdrop Tree.....	40
125 <i>Halesia grandiflora</i> .	Silver Bell, Great flowered.....	1 00
126 <i>Halesia parviflora</i> .	Silver Bell, Small flowered.....	50
127 <i>Halesia rosea</i> .	Silver Bell, Rose tinted.....	1 00
128 <i>Halesia diptera</i> .	Silver Bell, Two winged.....	50
129 <i>Helianthemum appeninum</i> .	<i>Helianthemum</i> , Appenine Dwarf.....	50
130 <i>Hibiscus syriacus</i> .	<i>Althea frutex</i> , or <i>Rose of Sharon</i>	
131 <i>Hibiscus bicolor</i> .	Althea frutex, Single White, crimson center.....	20
132 <i>Hibiscus niveus</i> .	Althea frutex, Single, snow white, beautiful.....	38
NOTE.—The following are all double flowering, except No. 159.		
133 <i>Hibiscus albo pleno</i> .	Althea frutex, White.....	25 to 50
134 <i>Hibiscus nivœ pleno</i> .	Althea frutex, Snowy white.....	50
135 <i>Hibiscus rubro pleno</i> .	Althea frutex, Red.....	25 to 50
136 <i>Hibiscus ardens</i> .	Althea frutex, Bright red.....	38
137 <i>Hibiscus rosea</i> .	Althea frutex, Roseate.....	50
138 <i>Hibiscus rubra compacta</i> .	Althea frutex, Red Anemone.....	38

Botanical Name.	Common Name.	Price.
138 <i>Hibiscus violacea semiplena</i> .	Althea frutex, Semi-double Violet.	38
139 <i>Hibiscus ceruleans</i> .	Althea frutex, Blue.	38
140 <i>Hibiscus ceruleo-compacta</i> .	Althea frutex, Blue Anemone.	50
141 <i>Hibiscus bicolor</i> .	Althea frutex, Pleasant-eyed.	38
142 <i>Hibiscus albo varieg.</i>	Althea frutex, White striped.	38
143 <i>Hibiscus rosea varieg.</i>	Althea frutex, Roseate striped.	50
144 <i>Hibiscus speciosa</i> .	Althea frutex, Carnation striped.	50
145 <i>Hibiscus rubra pallida</i> .	Althea frutex, Pale red shaded.	50
146 <i>Hibiscus rosea bicolor</i> .	Althea frutex, Rose and red shaded.	50
147 <i>Hibiscus atrovirens</i> .	Althea frutex, Crimson shaded.	75
148 <i>Hibiscus albicans</i> .	Althea frutex, Incarnate, early flowering.	75
149 <i>Hibiscus incarnata</i> .	Althea frutex, Blush shaded.	50
150 <i>Hibiscus ceruleo purpureo</i> .	Althea frutex, Bluish purple.	50
151 <i>Hibiscus lilacina</i> .	Althea frutex, Lilac.	50
152 <i>Hibiscus paoniflora</i> .	Althea frutex, Red Peony flowered.	75
153 <i>Hibiscus elegansissima</i> .	Althea frutex, White, Blush, and Crimson	50
154 <i>Hibiscus fastuosa</i> .	Althea frutex, Imperial red.	75
155 <i>Hibiscus tricolor</i> .	Althea frutex, Vermilion Tricolor, beau- tifully mottled and striped, very unique	75
156 <i>Hibiscus picta</i> .	Althea frutex, Semi-double Painted Lady.	25 to 50
157 <i>Hibiscus purpurea pallida</i> .	Althea frutex, Semi-double light purple.	50
158 <i>Hibiscus rubro fol. aureis</i> .	Althea frutex, Double red, gold striped leaves.	75
158½ <i>Hibiscus profusa</i> .	Althea frutex, Profuse, Blush, purple center	75
159 <i>Hibiscus folio variegato</i> .	Althea frutex, Variegated-leaved single...	50

N.B.—The above, with only four exceptions, will withstand our northern Winters.

161 <i>Hippophae rhamnoides</i> .	Sea Buckthorn.	38
162 <i>Hydrangea arborescens</i> .	Hydrangea, White, tall.	38
163 <i>Hydrangea hortensis</i> .	Hydrangea, Blue and Pink.	25
164 <i>Hydrangea variegata</i> .	Hydrangea, Striped leaved.	50
165 <i>Hydrangea japonica</i> .	Hydrangea, Japan blue.	30
166 <i>Hydrangea pubescens</i> .	Hydrangea, Pubescent.	75
167 <i>Hydrangea quercifolia</i> .	Hydrangea, Oak-leaved white.	50
168 <i>Hydrangea radiata</i> .	Hydrangea, Ray-flowered white.	38
169 <i>Hypericum Kalmianum</i> .	St. John's wort, Kalm's.	25
170 <i>Ilex prionoides</i> .	Deciduous Holly.	75
171 <i>Itea virginica</i> .	Virginian Itea.	50
172 <i>Indigofera decora</i> .	Indigo, Brilliant.	1 00
173 <i>Indigofera dosua</i> .	Indigo, Dosua.	1 00
174 <i>Jasminum fruticans</i> .	Jasmin, Large-leaved yellow.	38
175 <i>Jasminum humile</i> .	Jas-min, Italian small-leaved.	38
176 <i>Kerria, or Cor. horns</i> .	Corkchorus, Yellow.	20
177 <i>Lagerstroemia indica</i> .	Crape Myrtle, Pink.	40 to 75
177½ <i>Lagerstroemia regia</i> .	Crape Myrtle, Red.	40 to 75
178 <i>Lagerstroemia violacea</i> .	Crape Myrtle, Violet.	40
178½ <i>Lagerstroemia purpurea</i> .	Crape Myrtle, Purple.	40
179 <i>Lagerstroemia corallina</i> .	Crape Myrtle, Splendid Coral.	1 50
180 <i>Ligustrum italicum</i> .	Privet, Italian, sub-evergreen.	20
181 <i>Ligustrum variegatum</i> .	Privet, Striped-leaved.	38
182 <i>Ligustrum japonicum</i> .	Privet, Japan Laurel-leaved.	50
183 <i>Lycium Carolinianum</i> .	Lycium, Carolina.	1 00
184 <i>Lonicera</i> .	Twinning, Honeysuckles. (See page 45).	
185 <i>Magnolia gracilis</i> .	Magnolia, Japan purple, twice flowering.	1 00
186 <i>Magnolia obovata</i> .	Magnolia, Chinese Purple and White, blooms twice.	75
187 <i>Magnolia Thompsoniana</i> .	Magnolia, Thompson's large white.	2 to 3 00
Paeonia arborea, see Tree Paeonies, under distinct head.		
188 <i>Pavia macro-tachya</i> .	Chestnut, Dwarf white.	50
189 <i>Pavia florepleno</i> .	Chestnut, Double flowering Dwarf.	2 00
190 <i>Philadelphus coronarius</i> .	Syringa, European fragrant.	25
191 <i>Philadelphus multiplex</i> .	Syringa, Double flowered.	35 to 50
192 <i>Philadelphus Gordoniianus</i> .	Syringa, Gordon's Oregon.	25 to 38
193 <i>Philadelphus grandiflorus</i> .	Syringa, Garland, large flowers.	25
194 <i>Philadelphus Himalayensis</i> .	Syringa, Hima-aya.	1 00
195 <i>Philadelphus gracilis</i> .	Syringa, Slender branched.	38
196 <i>Philadelphus nana</i> .	Syringa, Dwarf.	25
197 <i>Philadelphus nivalis</i> .	Syringa, Snow-flowered.	50

Botanical Name.	Common Name.	Price.
198 <i>Philadelphus Sartmanianus</i> .	Syringa, Japan, new.....	50
199 <i>Philadelphus thyrsiflorus</i> .	Syringa, Thyrse flowered.....	50
200 <i>Philadelphus virgatus</i> .	Syringa, Branching.....	50
201 <i>Philadelphus Zeyherii</i> .	Syringa, Zeyher's beautiful.....	50
202 <i>Philadelphus inodorus</i> .	Syringa, Scentless.....	25
203 <i>Potentilla fruticosa</i> .	Cinquefoil, Shrubby.....	20
204 <i>Potentilla floribunda</i> .	Cinquefoil, Profuse flowered.....	50
205 <i>Prinos verticillatos</i> .	Winterberry, Scarlet.....	25
206 <i>Prunus nigra, pleno</i> .	Sloe, Double flowering.....	50
206½ <i>Ptelia trifoliata</i> .	Hop Tree.....	35
Punica .	Pomegranate , see page 25.	
Pyrus Japonica , see <i>Cydonia</i> .		
209 <i>Rhamnus catharticus</i> .	Buckthorn, Purging.....	20
210 <i>Rhamnus Carolinus</i> .	Buckthorn, Carolina, beautiful.....	1 00
211 <i>Rhamnus Californicus</i> .	Buckthorn, California, beautiful.....	1 00
212 <i>Ribes albidum</i> .	Currant, Snowy flowered, beautiful.....	75
213 <i>Ribes alpinum</i> .	Currant, Alpine scarlet fruited.....	50
214 <i>Ribes Bridgesii</i> .	Currant, Bridge's.....	50
215 <i>Ribes Gordonianum</i> .	Currant, Gordon's orange and scarlet.....	50
216 <i>Ribes setosum</i> .	Currant, Setose.....	
217 <i>Ribes subvestitum</i> .	Currant, Californian, beautiful.....	1 00
218 <i>Ribes cynosbati</i> .	Currant, Red prickly fruited.....	50
218½ <i>Ribes malvaceum</i> .	Currant, Mallow-flowered.....	50
219 <i>Ribes sanguineum</i> .	Currant, Scarlet flowering.....	50
220 <i>Ribes, flore pleno</i> .	Currant, Double flowering.....	1 00
221 <i>Ribes speciosum</i> .	Currant, Fuchsia flowered.....	50
222 <i>Ribes tenuifolium</i> .	Currant, Yellow fruited.....	50
222½ <i>Ribes Utah</i> .	Currant, Mormon.....	1 00
223 <i>Ribes splendens</i> .	Currant, splendid.....	75

N. B.—For other Species, see pages 27 and 28.

223½ <i>Robinia hispida</i> .	Acearia, Rose.....	25
224 <i>Robinia macrophylla</i> .	Aceacia, Weeping rose.....	50
225 <i>Rubus cuneifolius</i> .	Bramble, Cuneiform.....	50
226 <i>Rubus nobilis</i> .	Bramble, Noble purple.....	50
227 <i>Rubus nootkanus</i> .	Raspberry, Snowy.....	50
228 <i>Rubus odoratus</i> .	Raspberry, Purple flowered.....	16
229 <i>Rubus rosæfolius</i> .	Raspberry, Chinese Dwarf Double white.....	35
230 <i>Rubus spectabilis</i> .	Raspberry, Showy Purple.....	50

N. B.—For other Species, see Vines and Creepers.

231 <i>Salix</i> , see <i>Osiuers</i> .	Willow, see <i>Osiuers</i> .	
232 <i>Sambucus, flore pleno</i> .	Elder, Double flowering.....	50
233 <i>Shepherdia argentea</i> .	Shepherdia, Silvery.....	50 to 75
Spartium , see <i>Cytisus</i> and <i>Genista</i> .		
235 <i>Spiraea adiantoides</i> .	Spiræa, Adiantum-leaved dwarf.....	50
236 <i>Spiraea alpina</i> .	Spiræa, Alpine.....	25 to 38
237 <i>Spiraea amœna</i> .	Spiræa, Select cluster, white.....	50
238 <i>Spiraea ariæfolia</i> , vel <i>sinensis</i> .	Spiræa, Aria-leaved white.....	50
239 <i>Spiraea argentea</i> .	Spiræa, Silvery-leaved.....	25 to 38
240 <i>Spiraea bella</i> .	Spiræa, Chinese dwarf, pink.....	25 to 35
241 <i>Spiraea betulæfolia</i> .	Spiræa, Birch-leaved.....	25
242 <i>Spiraea Billardieri</i> .	Spiræa, Billard's bright rosy.....	1 00
243 <i>Spiraea Blumei</i> .	Spiræa, Blume's bright pink.....	1 00
243½ <i>Spiraea Californica</i> .	Spiræa, Californian white.....	50
244 <i>Spiraea callosa</i> vel <i>Fortunei</i> .	Spiræa, Chinese pink paniced.....	30 to 50
245 <i>Spiraea candicans</i> .	Spiræa, Hoary.....	50
246 <i>Spiraea chamaedrifolia</i> .	Spiræa, White Germander.....	25

SELECTIONS OF FLOWERING SHRUBS.

Most persons are so well acquainted with these, that we will only remark to those least acquainted, that, for general ornament, amateurs usually select the different varieties of Double Althea, Azalea, Calycanthus, Deutzia, Hawthorn, Japan Quince, Euonymus, Forsythia, Groundsel-tree, Magnolia, Clethra, Philadelphus, Rose Acacia, Spiræa, Lilac, Upright Honeysuckle, Weigela, Tamarisk, Viburnum, Flowering currant, Hydrangea, Syringa, &c.

OSIER—BASKET WILLOW.

Plants \$2 per dozen, and \$12 per 100. Scions \$1 per 100, and \$4 to \$5 per 1000; and *Salix viminalis* in quantities of 25,000 or more, \$2½ to \$3 per 1000. No less than \$1 worth will be supplied of any kind. N. B.—Directions for culture therewith.

1 <i>Acutifolia</i> , for dry soil.	16 Gloucestershire, or Tockington.	28 Rubra, or Purpurea mascula.
2 <i>Alba</i> , Bedford, or Fence Willow.	29 Russelliana.	
3 <i>Alba fœmina</i> .	17 <i>Helix Viminalis</i> of Colby, long clean shoots, superior.	30 Starkianum.
4 <i>Alba mascula</i> .	18 <i>Helix fœmina</i> .	31 Stipularis.
5 <i>Annularis</i> .	19 Holosericea.	32 <i>Triandra fœmina</i> , longest leaves.
6 <i>Argentea</i> .	20 Laurifolia.	33 <i>Triandra mascula</i> , bright golden clean shoots for fine basket work.
7 <i>Babylonica nigra</i> .	21 Longskin, a synonym.	34 <i>Viminalis fœmina</i> , clean bark, greenish yellow in winter.
8 <i>Beveridge</i> , for hedge, a synonym.	22 <i>Mollissima</i> (Loudon).	35 <i>Viminalis mascula</i> .
9 <i>Bicolor</i> .	23 <i>Nigra</i> .	36 Violacea.
10 <i>Caprea</i> , for dry soil.	24 Pentandria.	37 Viridis.
11 <i>Caprea variegated</i> , for dry soil.	25 <i>Purpurea</i> , see Rubra.	38 Vitellina, or Aurea.
12 <i>Comewell</i> .	26 <i>Rosmarinifolia</i> , or Pack-thread willow, long slender shoots purple bark.	
13 <i>Daphnoïdes</i> .	27 Rubra, or Purpurea, most esteemed by Coopers and Basket-makers.	
14 <i>Decipiens</i> .		
15 <i>Forbyana</i> , for fine basket work.		

UPRIGHT HONEYSUCKLES.

35½ <i>Diervilla lutea</i> .	Acadian yellow.....	38
36½ <i>Xylosteum alpinum</i> .	Swiss-red-berried.....	35
37½ <i>Xylosteum alpinum</i> .	Alpine black-berried.....	50

Botanical Name.	Common Name.	Price.
38½ <i>Xylosteum caucasicum</i> .	Oriental, or Caucasian white.	50
39 <i>Xylosteum ceruleum</i> .	Blue-berried.	35
40 <i>Xylosteum ciliatum</i> .	Ciliated-leaved.	50
41 <i>Xylosteum Ledebourii</i> .	Californian yellow and red, evergreen.	25 to 35
42 <i>Xylosteum occidentale</i> .	Occidental.	50
43 <i>Xylosteum Sibericum luteum</i> .	Siberian yellow, very beautiful.	75
44 <i>Xylosteum Thomasii</i> .	Thomas' new.	1 00
45 <i>Xylosteum tartarium</i> .	Tartarian, early red.	20 to 30
46 <i>Xylosteum albiflora</i> .	Tartarian early white.	20 to 35
47 <i>Xylosteum grandiflora</i> .	Tartarian bright red, variegated, splendid.	50
48 <i>Xylosteum officinale</i> .	European straw-colored.	20 to 35
49 <i>Xylosteum solonis</i> .	American yellow.	50

TWINING HONEYSUCKLES.

	.Honeysuckle.	
51 <i>Caprifolium rubrum</i> .	Early blush or Red Italian.	35
52 <i>Caprifolium album</i> .	Early white Italian.	50
53 <i>Caprifolium sempervirens</i> .	Italian Evergreen.	50
54 <i>Periclymenum</i> .	English Woodbine.	20 to 38
55 <i>Belgium</i> .	Striped monthly.	20 to 35
56 <i>Flavum</i> .	Yellowish Woodbine.	50
57 <i>Serotinum</i> .	Late red cluster.	50
58 <i>Periclymenum Quercifolium</i> .	Oak-leaved white.	50
59 <i>Variegatum</i> .	Variegated oak-leaved.	50
60 <i>Glauea</i> .	Glaueous-leaved.	75
61 <i>Canadensis</i> .	Canada straw-colored.	30
62 <i>Canescens</i> .	Algiers hoary-leaved white.	50
62½ <i>Ciliata</i> .	Californian Ciliated.	1 00
63 <i>Confusa vel Japonica</i> .	Japan straw-colored.	25 to 38
64 <i>Etrusca</i> .	Etruscan, or Tuscany.	50
65 <i>Douglashii</i> , <i>blooms in June</i> .	Douglass' straw-colored, ovate-leaved.	50
66 <i>Sempervirens</i> .	Scarlet trumpet monthly.	35
67 <i>Sempervirens minor vel grata</i> .	Small deep scarlet trumpet, or Evergreen monthly.	50
68 <i>Brownii</i> .	Superb bright scarlet.	35
69 <i>Bicolor superba</i> .	Scarlet and yellow monthly.	75
70 <i>Flava</i> , <i>vel Fraseri</i> .	Yellow trumpet monthly.	35
70½ <i>Macrophyllum</i> , round glaucous leaves.	Large perfoliate-leaved, straw colored.	50
71 <i>Occidentalis</i> .	Oregon orange-colored, twice flowering.	1 00
72 <i>Parviflora</i> .	Small dark yellow.	30
73 <i>Pubescens</i> .	Pubescent orange-colored.	35
74 <i>Flexuosa vel sinensis</i> .	Chinese Evergreen monthly, fragrant.	20 to 35
75 <i>Japonica</i> , <i>Villosissima alba</i> .	Japan Evergreen, pure white flowers.	50
76 <i>Brachypoda</i> .	Brachypoda.	30 to 50
77 <i>Fragrantissima</i> .	Chinese Fragrant, new.	1 00
78 <i>Implexa</i> .	Minorca purplish.	50
80 <i>Magnevillei</i> .	Magneville's Chinese white, blooms April.	50
81 <i>Romana</i> .	Roman.	50
82 <i>Speciosissima</i> .	Specious, or Showy.	50
83 <i>Splendida vel splendens</i> .	Brilliant scarlet.	30 to 50
84 <i>Sulphurea</i> .	Sulphur-colored.	30
85 <i>Standishii</i> .	Standish's Fragrant.	30
86 <i>Vaccinifolia</i> .	Vaccinium-leaved.	50
87 <i>Villosissima</i> .	Velvet Tuscan, white.	38
88 <i>Fortunei</i> .	Fortune's Chinese.	1 00
89 <i>Spectabilis</i> .	Chinese splendid.	75

N. B.—Extra Large plants of several of the best varieties at 50 to 75 cents.

VINES AND CREEPERS.

87½ <i>Ampelopsis hederacea</i> .	.Virginia Creeper.	20
88½ <i>Ampelopsis bipinnata</i> .	.Bipinnate-leaved Creeper, delicate foliage	50
89½ <i>Ampelopsis Roylei</i> .	.Royle's Creeper.	75
90 <i>Ampelopsis cordata</i> .	.Cordate-leaved Creeper.	38
91 <i>Ampelopsis tricolor</i> , <i>Vitis variegata</i> .	.Tricolor-leaved, beautiful.	30 to 50
92 <i>Apios</i> (<i>Glycine</i>) <i>tuberosa</i> .	Purple Cluster Glycine (Herbaceous).	25
93 <i>Aristolochia</i> <i>siphon</i> .	Dutchman's Pipe vine.	38 to 50

Botanical Name.	Common Name.	Price.
94 <i>Aristolochia tomentosa</i> (pubescens).....	Downy-leaved Pipe vine.....	50
95 <i>Aristolochia altissima</i>	Lofty-growing Pipe vine.....	50
96 <i>Aristolochia Kempferii</i>	Kempfer's Pipe vine.....	75
97 <i>Aristolochia serpentaria</i>	Medicinal Pipe vine (Herbaceous).....	25
98 <i>Asclepias nigra</i>	Swallowwort , Black-flowered (Herbaceous)	38

197 <i>Wistaria frutescens</i> (Glycine).....	Wistaria , American purple.....	20 to 35
198 <i>Wistaria frutescens nivea</i>	Wistaria, American Snow-white, twice flowering.....	1 50
199 <i>Wistaria magnifica</i>	Wistaria, Magnificent American.....	1 00
200 <i>Wistaria floribunda vel purpurascens</i>	Wistaria, Large spiked cerulean, beautiful, blooms twice, most vigorous.....	1 00
201 <i>Wistaria sinensis</i>	Wistaria, Chinese large blue, blooms twice.....	35 to 50
	<i>Ditto</i> , largest size.....	1 00
202 <i>Wistaria sinensis alba</i>	Wistaria, Chinese large white.....	1 00
203 <i>Wistaria brachypoda</i>	Wistaria, Brachypoda.....	1 00
204 <i>Wistaria violacea</i>	Wistaria, Violet colored, blooms twice...	1 00
205 <i>Wistaria brachybotria rosea</i>	Wistaria, Pale violet, blooms twice.....	1 00

EVERGREEN CLIMBERS.

208 <i>Akebia quinata</i>	Akebia, Chinese, shining leaves, neat flowers.....	50
209 <i>Aristolochia sempervirens</i>	Birthwort , Evergreen.....	50
210 <i>Aristolochia Kempferi</i>	Birthwort, Kempfer's.....	75
211 <i>Bignonia crucigera</i> (<i>capreolata</i>).....	Orange-colored Trumpetflower.....	35 to 50
212 <i>Clematis semperfervens</i>	Fragrant white Clematis.....	50
213 <i>Decumaria sarmentosa</i>	Climbing Decumaria.....	25 to 50
214 <i>Dioclea glycinoides</i>	Scarlet Dioclea , (like Glycine).....	1 00
214½ <i>Gelsemium nitidum</i>	Jasmine, Carolina yellow.....	25 to 38

Botanical Name.	Common Name.	Price.
215 <i>Hedera helix</i>	Ivy, European Evergreen.....	20
216 <i>Hedera variegata argentea</i>	Ivy, Variegated-leaved.....	50
217 <i>Hedera hibernica vel Canariensis</i>	Ivy, Irish, large foliage.....	25 to 35
218 <i>Hedera hibernica striata</i>	Ivy, Striped-leaved Irish.....	50
219 <i>Hedera arboreascens</i>	Ivy, Tree or shrubby.....	50
220 <i>Hedera Algeriensis</i>	Ivy, Algiers.....	50
221 <i>Hedera Caucasicia</i>	Ivy, Caucasian.....	50
222 <i>Hedera Ragueniana</i>	Ivy, Large heart-leaved.....	30 to 50
223 <i>Hedera Chrysocarpa vel Poetica</i>	Ivy, Classic or Poetic yellow-berried.....	50
224 <i>Hedera palmata vel digitata</i>	Ivy, Palmate-leaved.....	35 to 50
225 <i>Hedera Ponderata</i>	Ivy, Ponderous.....	50
225½ <i>Hedera latifolia</i>	Ivy, Broad-leaved.....	30
226 <i>Jasminum fruticans</i>	Jasmine, Broad-leaved yellow.....	25 to 35
227 <i>Jasminum pubigerum (Wallichianum)</i>	Jasmine, Nepal yellow.....	25 to 50
227½ <i>Jasminum humile</i>	Jasmin, Italian small-leaved.....	35
228 <i>Jasminum nudiflorum</i>	Jasmine, Early yellow.....	35 to 50
228½ <i>Jasminum Reevesii</i>	Jasmine, Reeves' Chinese.....	75
229 <i>Jasminum tenuifolium</i>	Jasmine, Narrow-leaved.....	75
229½ <i>Jasminum revolutum (triumphans)</i>	Jasmine, Revolute, large yellow.....	25 to 35
230 <i>Jasminum Fortunei</i>	Jasmine, Fortune's Chinese.....	50
231 <i>Jasminum Poiteau</i>	Jasmine, Poiteau.....	50
For other Jasmonines, see preceding page.		
232 <i>Lonicera flexuosa</i>	Honeysuckle, Chinese fragrant, monthly..	25 to 35
233 <i>Lonicera Japonica Villosissima alba</i>	Honeysuckle, Japan white.....	50
Rosa	Roses, Climbing varieties , see Rose Catalogue.	
235 <i>Rubus lasciniatus</i>	Parsley-leaved Blackberry.....	50
236 <i>Rubus inermis</i>	Bramble, Thornless.....	50
237 <i>Rubus fruticosus plena</i>	Bramble, Double white, resembling small roses.....	38
238 <i>Rubus bellediflorus plena</i>	Bramble, Double pink daisy-flowered, beautiful.....	50
239 <i>Ruscus racemosus</i>	Classic Laurel, beautiful foliage.....	1 00
240 <i>Rynchospermum Jasminoides</i>	Jasmine-leaved Rynchospermum.....	50
241 <i>Smilax tamnooides</i>	Smilax, Carolina.....	50
242 <i>Stauntonia latifolia</i>	Stauntonia, Broad-leaved, rapid growth..	50 to 75
242½ <i>Stauntonia amabilis</i>	Stauntonia, Lovely.....	50 to 75
243 <i>Stauntonia tolucensis</i>	Stauntonia, Toluca.....	75
244 <i>Vinca minor</i>	Periwinkle, or Running Myrtle , Blue.....	25
244½ <i>Vinca bicolor</i>	Periwinkle, white and blue flowers distinct	38
245 <i>Vinca cerulea plena</i>	Periwinkle, Double blue.....	50
246 <i>Vinca albiflora</i>	Periwinkle, White-flowered.....	25
247 <i>Vinca punicea</i>	Periwinkle, Purple-flowering.....	38
248 <i>Vinca punicea plena</i>	Periwinkle, Double red or purple.....	50
249 <i>Vinca cerulea variegata</i>	Periwinkle, Gold-striped, blue flowers....	25
250 <i>Vinca variegata, alba</i>	Periwinkle, Gold-striped, white flowers..	50
251 <i>Vinca major</i>	Periwinkle, Broad-leaved, large flowers..	38

N. B.—The Vincas are very suitable for Cemeteries, and will be supplied at \$25 per 1,000.

EVERGREEN TREES.—CONIFERÆ.

Including the new and rare species recently introduced. Amateurs of the favorite family of Evergreen Trees, will not fail to notice the great superiority of this collection over any other offered for sale, and especially when fine Evergreens are so scarce and desirable. Extra large Spruces and Pines, and many other species, can be supplied at proportionate prices. Small Seedling trees, of 1, 2, and 3 years, being of much less value, will be supplied at very moderate rates. The different Catalogue prices for Evergreen Trees, form no criterion, as their value depends upon the age and size.

1 <i>Abies Alba</i>	Spruce, White American.....	75
<i>Do</i> , 4 to 10 feet, at proportionate rates.		
2 <i>Abies Argentea</i>	Spruce, White European, very beautiful..	1 00
<i>Do</i> , 4 to 8 feet, at proportionate rates.		
3 <i>Abies acutissima</i>	Spruce, Acute-leaved.....	2 00
4 <i>Abies amabilis</i>	Spruce, Californian beautiful.....	2 00
5 <i>Abies Brunoniana</i>	Spruce, Alpine silvery Dwarf.....	2 to 3 00

Botanical Name.	Common Name.	Price.
6 <i>Abies Canadensis</i> .	Spruce, Hemlock or Weeping.	75
Do., 4 to 8 feet, at proportionate rates.		
<i>Abies Cephalonica.</i> See <i>Picea</i> .		
8 <i>Abies Cerulea</i> .	Spruce, Bluish European, beautiful.	1 to 2 00
9 <i>Abies Clanbrasiliiana</i> .	Spruce, Clanbrasill's dwarf.	1 00
9½ <i>Abies conica</i> .	Spruce, Conical.	1 00
10 <i>Abies Douglassii</i> .	Spruce, Douglass' Californian.	2 to 3 00
11 <i>Abies diffusa</i> .	Spruce, Diffuse.	2 00
12 <i>Abies Excelsa</i> .	Spruce, Norway, according to size.	50 to 1 00
Do., 6 to 15 feet at proportionate prices.		
13 <i>Abies Gregorii</i> .	Spruce, Gregory's Dwarf.	2 00
14 <i>Abies Menziesii</i> .	Spruce, Menzies' Oregon.	1 50 to 2 00
15 <i>Abies Morinda</i> (<i>Smithiana</i>).	Spruce, Himalaya (1 to 6 ft., \$1 per foot).	1 00
16 <i>Abies Nigra</i> .	Spruce, Black or double.	50
17 <i>Abies Novæ Hollandiae</i> .	Spruce, New Holland.	2 00
17½ <i>Abies orientalis</i> .	Spruce, Oriental.	1 00
18 <i>Abies orientalis vera</i> .	Spruce, Oriental.	2 to 3 00
19 <i>Abies pyramidalis</i> .	Spruce, Pyramidal.	2 00
20 <i>Abies pygmæa</i> .	Spruce, Liliputian.	2 00
21 <i>Abies Pinsapo.</i> See <i>Picea</i> .		
22 <i>Abies rubra</i> .	Spruce, Red or Double.	50
23 <i>Abies spectabilis.</i> See <i>Picea</i> .		
24 <i>Araucaria Imbricata</i> .	Chili Pine.	2 00
25 <i>Araucaria Lanceolata</i> .	Chinese lance-leaved pine.	2 to 5 00
26 <i>Araucaria Braziensiis</i> .	Brazil pine.	2 50 to 5 00
27 <i>Araucaria Bidwillii</i> .	Billwill's pine.	3 to 5 00
28 <i>Araucaria Gracilis vel elegans</i> .	Graceful pine.	5 to 8 00
N. B.—The last four require protection north of Charleston.		
29 <i>Biotia</i> . See <i>Thuya</i> .		
30 <i>Cedrus Africanus viridis</i> .	Cedar. African green, beautiful, most hardy, rapid growth.	2 00
Do., extra size, 3 to 12 feet, \$1 per foot.		
31 <i>Cedrus Deodara</i> .	Cedar, Deodar Silvery foliage.	50 to 2 00
Do., extra size, 3 to 8 ft. 75 cts. per foot.		
32 <i>Cedrus Deodara robusta</i> .	Cedar, Robust Deodar.	1 00
33 <i>Cedrus Libani</i> .	Cedar of Lebanon.	2 00
Do., extra size, 3 to 8 ft., \$1 per foot.		
34 <i>Cedrus Libani argentea</i> .	Mount Atlas Silvery Cedar.	2 00
Do., 3 to 12 feet, \$1 per foot.		
35 <i>Cephalotaxus Drupacea</i> .	Drupe-bearing Yew.	1 50
36 <i>Cephalotaxus Fortunei</i> .	Fortune's Chinese Yew.	50 to 2 00
37 <i>Cephalotaxus Montana</i> .	Mountain Yew.	3 00
38 <i>Cephalotaxus Pedunculata</i> .	Pedunculate Yew.	2 00
39 <i>Cephalotaxus Sinensis</i> .	Chinese Yew.	1 00
40 <i>Chamæcypris nana</i> .	Chamæcypris, Dwarf.	1 00
41 <i>Cerasus Caroliniana</i> .	Wild Orange (tender).	50 to 75
42 <i>Cryptomeria Japonica</i> .	Japan Weeping Cypress.	1 00
Do., 4 to 10 feet, at 75 cts. per foot.		
43 <i>Cryptomeria Lobbiana</i> .	Japan dense-leaved Cypress.	2 to 3 00
44 <i>Cryptomeria Nana</i> .	Japan dwarf Cypress.	1 00
45 <i>Cunninghamia sinensis</i> .	Chinese lanceolate Cunninghamia.	1 to 2 00
46 <i>Cupressus Australis</i> .	Cypress, Australian.	1 00
47 <i>Cupressus Chinensis</i> (<i>pendula</i>).	Cypress, Chinese pendulous.	2 00
48 <i>Cupressus Erecta</i> .	Cypress, Erect.	1 50
49 <i>Cupressus Erocoides</i> .	Cypress, Heath-leaved.	1 00
50 <i>Cupressus elegans</i> .	Cypress, elegant.	1 00
51 <i>Cupressus Flagelliformis</i> .	Cypress, Flagelliform.	2 to 3 00
52 <i>Cupressus Funebris</i> .	Cypress, Chinese funebral.	50 to 1 50
53 <i>Cupressus Gossanthanea</i> .	Cypress, Gossanthanea.	2 00
54 <i>Cupressus Goweniana</i> .	Cypress, Gowen's pale green.	75 to 1 00
55 <i>Cupressus Gracilis</i> .	Cypress, Graceful.	3 00
56 <i>Cupressus horizontalis</i> .	Cypress, Spreading.	50 to 1 00
57 <i>Cupressus Japonica</i> .	Cypress, Japan.	2 00
58 <i>Cupressus Knightiana elegans</i> .	Cypress Knight's.	2 00
59 <i>Cupressus Thuyæfolia</i> .	Cypress, Thuya-leaved.	1 00
60 <i>Cupressus Lawsoniana</i> .	Cypress, Lawson's Californian.	2 00
61 <i>Cupressus Lambertiana</i> .	Cypress, Lambert's.	1 to 2 00
62 <i>Cupressus Lusitanica glauca</i> .	Cypress, Portuguese glaucous.	1 00

Botanical Name.	Common Name.	Price :
63 <i>Cupressus Macrocarpa</i>	Cypress, Large-coned,	1 to 1 50
64 <i>Cupressus Mexicana</i>	Cypress, Mexican pyramid, 2 to 4 feet	1 to 2 00
65 <i>Cupressus McNabiana</i>	Cypress, McNab's Californian	2 00
66 <i>Cupressus montana</i>	Cypress, Mountain	50
67 <i>Cupressus Pyramidalis</i>	Cypress, Pyramidal, beautiful	50 to 1 00
68 <i>Cupressus Religiosa</i>	Cypress, Sacred	2 00
69 <i>Cupressus Reevesiana</i>	Cypress, Ree've's Chinese	1 to 2 00
70 <i>Cupressus stricta</i>	Cypress, Upright	50
71 <i>Cupressus Thuyoides</i>	American white cedar	50
72 <i>Cupressus Thuyoides variegata</i>	Gold variegated cedar	2 to 3 00
73 <i>Cupressus Torulosa</i>	Cypress, Twisted Nepal	75
74 <i>Cupressus Tournefortii</i>	Cypress, Tournefort's	1 to 2 00
75 <i>Cupressus Uhdæana</i>	Cypress, Uhdæana	2 00
76 <i>Fitzroya Patagonica</i>	Patagonian Fitzroy	3 to 5 00
77 <i>Ilex opaca</i>	Holly American	75
78 <i>Juniperus Argentea</i>	Juniper, Silvery-leaved, beautiful	1 50
Do., 3 to 8 feet, \$1 per foot.		
79 <i>Juniperus Bacciformis</i>	Juniper, Berry-bearing	1 50
80 <i>Juniperus Bedfordiana</i>	Juniper, Bedford	50
81 <i>Juniperus Bermudiana</i>	Juniper, Bermudas Cedar	1 50
82 <i>Juniperus Californica</i>	Juniper, Californian	2 00
83 <i>Juniperus Caroliniana</i>	Juniper, Carolina Spiral	75 to 1 00
84 <i>Juniperus Chinensis</i>	Juniper, Chinese	40 to 75
85 <i>Juniperus cinerascens</i>	Juniper, Cinerascent	2 00
86 <i>Juniperus Communis</i>	Juniper, English	50
87 <i>Juniperus Communis pendula</i>	Juniper, Weeping English	75
88 <i>Juniperus Cracovica</i>	Juniper, Cracow dark green	35
89 <i>Juniperus Dioica</i>	Juniper Dioecious	1 50
90 <i>Juniperus Dumosa</i> , vel <i>decumbens</i>	Juniper, Dense-leaved dwarf, beautiful	75
91 <i>Juniperus Echiniformis</i>	Juniper, Echinoform	75
92 <i>Juniperus Ericoides</i>	Juniper, Heath-like	50 to 1 00
93 <i>Juniperus Excelsa</i>	Juniper, Himalaya	75
94 <i>Juniperus Flaccida</i>	Juniper, Flaccid	1 25
95 <i>Juniperus fragrans</i>	Juniper, Fragrant	75
96 <i>Juniperus Gossanthanea</i>	Juniper, Gossanthanea	2 00
97 <i>Juniperus Hermanii</i>	Juniper, Herman's	2 00
98 <i>Juniperus Hibernica</i>	Juniper, Irish spiral, beautiful, exceedingly hardy	75
Do., 3 to 4 feet, 50 cents. per foot.		Do., 5 to 8 feet, 75 cts. per foot.
99 <i>Juniperus Japonica</i>	Juniper, Japan	2 00
100 <i>Juniperus Langoldii</i>	Juniper, Langold's	75
101 <i>Juniperus Oblonga pendula</i>	Juniper, Oblong Weeping	75 to 1 00
102 <i>Juniperus Oxycedrus</i>	Juniper, Brown-berried	1 50
103 <i>Juniperus Phoenicea</i> , or <i>Lycia</i>	Juniper, Phœnician	50 to 75
104 <i>Juniperus Prostrata</i>	Juniper, Trailing	40
105 <i>Juniperus pyramidalis</i>	Juniper, Pyramid	75
106 <i>Juniperus pyriformis</i>	Juniper, Californian pyriform	1 25
107 <i>Juniperus Recurva</i>	Juniper, Recurved, or Pendulous	1 00
108 <i>Juniperus Reevesiana</i> (<i>Flagelliformis</i>)	Juniper, Reeves' Flagelliform	75
109 <i>Juniperus Religiosa</i>	Juniper, Sacred	1 75
110 <i>Juniperus Sabina vera</i>	European Savin	38 to 50
111 <i>Juniperus Sabina variegata</i>	Variegated Savin	75
111½ <i>Juniperus Sphaerica</i>	Juniper, Spherical	2 00
112 <i>Juniperus Squamata</i>	Juniper, Scaly	38 to 50
113 <i>Juniperus Suecica</i>	Juniper, Swedish Conical, beautiful, exceedingly hardy	35 to 75
Do., 3 to 4 feet, 50 cts. per foot.		Do., 5 to 10 feet, 75 cts. per foot.
114 <i>Juniperus Tamariscifolia</i>	Juniper, Tamarisk-leaved Savin	50 to 75
115 <i>Juniperus Thurifera</i>	Juniper, Spanish Incense	60
116 <i>Juniperus Virginiana</i>	Red Cedar, (extra size 50 cts. to \$1)	25
117 <i>Juniperus Virginiana glauca</i>	Red Cedar, Glauceous	60
118 <i>Juniperus Virginiana pendula</i>	Juniper, Weeping Red Cedar	1 00
119 <i>Laurus Camphora</i>	Camphor tree	1 50
120 <i>Libocedrus Chilensis</i>	Chilian Libocedrus	1 to 2 00
121 <i>Libocedrus Decurrens</i>	Californian Libocedrus	1 to 2 00
122 <i>Libocedrus Doniana</i>	Libocedrus, Don's	1 to 2 00

Picea Amabilis, see *Abies*.

Botanical Name.	Common Name.	Price.
123 <i>Magnolia grandiflora</i> .	Great flowered Magnolia.	50 to 2 00
124 <i>Magnolia Semiplena</i> .	Semidouble Magnolia.	3 00
125 <i>Magnolia Hartwicus</i> .	Hartweg's new evergreen Magnolia.	5 00
126 <i>Magnolia Oxoniensis (Ferruginea)</i> .	Exmouth Magnolia.	1 to 2 00
127 <i>Magnolia Gallisonari</i> .	Angiers Magnolia.	1 50
128 <i>Magnolia Praecox</i> .	Early Flowering Magnolia.	1 50
129 <i>Magnolia Undulata</i> .	Waved-leaved Magnolia.	50 to 2 00
N. B.—Some of the above of extra size, \$3 to \$5.		
130 <i>Olea Europea</i> .	Fruit-bearing Olive, four fine varieties.	1 to 2 00
131 <i>Picea Balsamea</i> .	Balsam Fir.	50
	Do., 5 to 14 feet.	1 to 4 00
132 <i>Picea Cephalonica</i> .	Cephalonian Fir.	1 to 2 00
133 <i>Picea Fraserii</i> .	Fraser's Balsam Fir.	75 to 1 50
<i>Picea Grandis</i> , see <i>Abies Douglassii</i> .		
134 <i>Picea lasiocarpa</i> .	Fir , Woolly-leaved.	4 00
135 <i>Picea Nobilis</i> .	Fir, Californian Noble.	2 to 3 00
136 <i>Picea Nordmaniana</i> .	Fir, or Spruce , Nordman's.	2 00
137 <i>Picea Pectinata</i> .	Fir, or Spruce, European Silver.	50 to 1 00
138 <i>Picea Pectinata compacta</i> .	Fir, or Spruce, Compact Silver.	1 00
139 <i>Picea Pindrow</i> .	Fir, or Spruce, Kumaon Pindrow.	1 00
140 <i>Picea Pichta—Sibirica</i> .	Fir, or Spruce, Siberian.	1 00
141 <i>Picea Pinsapo</i> .	Fir, or Spruce, Mount Atlas.	1 50 to 2 00
143 <i>Picea Webbiana (Spectabilis)</i> .	Fir, or Spruce, Nepal purple-coned.	1 50 to 2 00
144 <i>Pinus Austrica</i> .	Pine , Austrian Black.	50
	Do., 3 to 8 feet.	1 to 4 00
145 <i>Pinus Benthamiana</i> .	Pine, Bentham's Californian, splendid.	75
146 <i>Pinus Brutia</i> .	Pine, Brutia.	1 00
147 <i>Pinus Calabriensis</i> .	Pine, Calabrian, splendid.	1 to 2 00
148 <i>Pinus Cembra</i> .	Pine, Siberian Cembran, grows slow.	1 00
149 <i>Pinus ciliicia</i> .	Pine, Ciliicious.	200
150 <i>Pinus Coulterii</i> .	Pine, Great-hooked.	2 00
151 <i>Pinus Excelsa</i> .	Pine, Bhutan Lofty.	50 to 2 00
152 <i>Pinus Haguensis</i> .	Pine, Hagueneau.	1 00
153 <i>Pinus Halepensis</i> .	Pine, Aleppo.	75
154 <i>Pinus Insignis vera</i> .	Pine, Monterey.	1 to 2 00
155 <i>Pinus Jeffreyi</i> .	Pine, Jeffrey's Californian.	2 to 3 00
156 <i>Pinus Lambertiana</i> .	Pine, Lambert's gigantic.	2 00
157 <i>Pinus Laricio</i> .	Pine, Corsican.	75
158 <i>Pinus Macrocarpa, vel Sabiniana</i> .	Pine, Sabine's Californian.	3 00
159 <i>Pinus Mitis</i> .	Pine, American yellow.	50
160 <i>Pinus Montezumæ</i> .	Pine, Montezuma.	2 to 3 00
161 <i>Pinus Montpeliensis</i> .	Pine, Montpelier.	1 00
162 <i>Pinus Monticola</i> .	Pine, Short-leaved Weymouth.	1 00
163 <i>Pinus Mugilis, or Pumilio</i> .	Pine, Dwarf mountain.	50 to 75
164 <i>Pinus Palustris (Australis)</i> .	Pine, Carolina pitch.	1 to 2 00
165 <i>Pinus Pinaster</i> .	Pine, Cluster coned.	50 to 1 00
	Do., 4 to 8 feet.	2 to 4 00
166 <i>Pinus Pinea</i> .	Pine, Italian stone, (eatable nuts).	75 to 1 50
167 <i>Pinus Ponderosa</i> .	Pine, Oregon, heavy wood.	2 00
168 <i>Pinus Pungens</i> .	Pine, Spiny-coned.	1 50
169 <i>Pinus Resinosa</i> .	Pine, American red, long beautiful foliage.	50 to 1 00
170 <i>Pinus Rigens</i> .	Pine, Riga.	50
171 <i>Pinus Rigida</i> .	Pine, Prickly-coned, or Pitch.	50
172 <i>Pinus Spiralis</i> .	Pine, Californian spiral.	3 to 5 00
173 <i>Pinus Strobus</i> .	Pine, White or Weymouth.	50
174 <i>Pinus Sylvestris</i> .	Pine, Scotch pine, or fir.	50
175 <i>Pinus Tuberculata</i> .	Pine, Californian tuberculate.	1 00
176 <i>Podocarpus Coreanus</i> .	Chinese Yew , Coreanus.	1 00
177 <i>Podocarpus Coriacea</i> .	Chinese Yew, Thick-leaved.	75
178 <i>Podocarpus Japonica</i> .	Japan Yew.	1 50
179 <i>Podocarpus Longifolius</i> .	Chinese Yew, Long-leaved.	1 00
180 <i>Podocarpus Mackii</i> .	Chinese Yew, Mackii.	1 00
181 <i>Podocarpus Macrophylla</i> .	Japan Yew, Large-leaved.	1 00
182 <i>Podocarpus Nerifolia</i> .	Chinese Yew, Oleander-leaved.	1 00
183 <i>Podocarpus Sinesis</i> .	Chinese Yew, Chinese Sylvan.	1 00
184 <i>Podocarpus Totara</i> .	Chinese Yew, Totara.	1 00
185 <i>Retinospora ericoides</i> .	Retinospora, Heath-leaved.	50 to 1 00

SELECTIONS OF EVERGREEN TREES AND SHRUBS.

The Norway Spruce, as a beautiful broad conical tree, of extreme hardihood, and suited to almost any location, commands universal approbation. The Drooping variety, interspersed with the Upright growing one, presents an agreeable contrast. The European White and American White Spruces are still more beautiful, and assume a more spiral and less spreading form, as they advance in growth. The Hemlock, or Weeping Spruce, when allowed to branch from the ground, with ample space for expansion, is one of our most graceful trees. There are many other Spruces of great beauty, but, being more rare, they are not obtainable of sufficiently large size for immediate embellishment.

Of the Cedars, the most beautiful is the Silvery-leaved Deodar, of graceful form, with drooping branches, and of very rapid growth. Some trees of this species were partially injured here during the unprecedented winter of 55-56; but they have regained their vigor; and we may rest assured that, when such trees shall have attained size and strength, they will withstand the climate perfectly, and further to the South they will, of course, be permanently secure, even when of the smallest size. The deep-green Deodar forms a more spiral tree, of great beauty, and has proved itself the hardest of its class, and is also of rapid growth. On this account it is destined to take precedence of the Cedar of Lebanon, whose growth is comparatively slow, with branches much more spreading. Among the species of Cypress, the most lofty and beautiful are the Pyra-

midalis and Expansa, so noted for ornamenting the cemeteries of Oriental Countries and of the south of Europe. These two are well suited to localities south of Washington, but are often injured severely in this latitude.

The most desirable Pines are the White and Red Pines of our own Country, and the Austrian, Pineaster, Scotch, Calabrian, Bhotan, and Cembran, and the Bentham, Sabine, and Spiral Californian Pines. Of the Jueipers the most symmetrical and conical are the Silvery-leaved, Irish, and Swedish,—all of the most hardy character, capable of sustaining the severest northern winters. The Chinese is also quite ornamental, though attaining only a moderate height; but the Carolina Conical Juniper, or Cedar, will reach a height of thirty feet, with a beautiful head. The splendid Cryptomerias of Japan, with their most graceful drooping foliage, sustain our winters here, but will not succeed further to the north. The American, Siberian, and Chinese Arbor Vitæ are all well suited for general adornment, and also for screens and hedges. The last two do not attain to an equal size with the former. Of the Yew family the English Upright, English Spreading, and the Irish, are the principal species of interest; the former is much the most desirable, and grows more rapidly than any other of its class.

The Magnolia grandiflora and its varieties produce the most splendid flowers of all the Evergreen family; and, by binding them in straw, we have preserved fine trees, now of twenty years' growth.

Evergreen Shrubs.—The most desirable are the Mahonias and Rhododendrons, for their splendid foliage and profusion of bloom, the Aucuba, the various Hollies, Euonymus, Cotoneasters, Phillyreas, and Photinias, and the Tree Box of the different varieties, for the beauty of their foliage, and for permanent ornament during winter, when they serve so greatly to cheer and enliven the "Winter Garden."

TREES AND SHRUBBRY SUITABLE FOR CEMETERIES.

Ash, Mountain.	Eglantine, several varieties.
European Weeping.	Euonymus, Japan green.
Golden Weeping.	Japan Variegated.
White fringed.	European white berried.
Curled-leaved, dark green.	European pink do
Arbor Vitæ, American.	European scarlet do
Californian.	European crimson berried.
Chinese.	
Siberian.	
Aucuba Japonica.	Holly , European green, six varieties.
Beech, Purple-leaved.	Variegated, eight varieties.
Green Weeping.	Scotch and Irish.
Bignonia crucigera , Evergreen climber.	Ilex , Balearica, beautiful foliage.
Berryberry , Purple-leaved.	Ivy , Irish large-leaved, English small do Climb. Poetic,
Box Dwarf, for edging.	Jasmine , several species.
Tree, green, and variegated.	Juniper , Irish dark green.
Cedar of Lebanon.	Argentea, Silver.
Cedrus Deodora.	Swedish light green.
Cherry Weeping.	Oblonga pendula (Weeping)
Cryptomeria Japonica (Weeping)	Kalmia latifolia .
Cypressus Funebris (Funeral Cypress).	Laurel , English, or Apollo's. Portugal.
	Laurel, Alexandrian or Classic, an Evergreen Climber.
	Linden , Scarlet Twig. Weeping.
	Magnolia , various species.
	Mahonia , several beautiful species.
	Purple Fringe-tree.
	Rhododendron , numerous splendid varieties.
	Vine , or Running Myrtle, 9 varieties.
	Virginia Creeper .
	Virgin's Bower , or Clematis, 10 species.
	Wistaria , Chinese Blue. White or Snowy.
	Willow , Weeping Ring-leaved.
	Woodbine , several species, Climbers.
	Yew , English spreading. English upright. Irish.

CHINESE TREE PÆONIES.—PÆONIA MOUTAN.

These are the most splendid and showy of all Flowering Shrubs, and among the most rare.

The flowers are mostly fragrant, and all are double, unless denoted otherwise. They are perfectly hardy, and will withstand the winters of our most northern States and the Canadas. They bloom in May, ten to fifteen days before the Chinese Herbaceous varieties.

Extra large plants of five and six years' growth, of Nos. 1 and 2, can be supplied at \$3 each; and also of many other varieties, at \$3, and others at \$5 and upwards.

Those marked thus * are Seedlings originated by W. R. Prince.

There is no other extensive Collection of this Class of Plants in the Union; and those we supply are far larger plants than are usually sold, and of blooming age. They are mostly on their own roots, and but few are grafted.

3 <i>Lilacina Carnea</i>	Lilac blush, crimson center, semi double..	1 50
4 <i>Maxima plena</i>	Large, Rosy blush, fragrant.....	2 to 3 00

Note.—We have a great stock of strong plants of the above four varieties, which we will sell low by dozen or hundred.

The following twenty-one splendid varieties were originated from seeds by Wm. R. Prince:—

5 * <i>Banksii Pallida plenissima</i>	Very large, pale roseate, splendid, protuberant, becomes nearly white.....	3 00
6 * <i>Banksii Coronata plenissima</i>	Coronet flowered, deep rosy crimson.....	3 to 5 00
7 * <i>Banksii Purpurascens minor</i>	Purplish crimson, minor Banksian.....	2 to 3 00
8 * <i>Banksii Rosacea plenissima</i>	Roseate Banksian, very fine.....	2 to 3 00
9 * <i>Banksii Purpurea pallida</i>	Large, pale purple.....	5 00
10 * <i>Banksii Rosea superba</i>	Large, rose colored, full double.....	6 00
11 * <i>Incarnata Splendida</i>	Large, blush incarnate, changing to white, lilac centre, full double.....	8 00
12 * <i>Papaveracea rosea pallida</i>	Imperial, Poppy flowered	5 00
13 * <i>Papaveracea Elegans</i>	Rosy purple, blush border, beautiful.....	5 00
14 * <i>Papaveracea Purpurea pallida</i>	Large, pale purple, deeper center.....	5 00
15 * <i>Papaveracea Bicolor superba</i>	Large, White, crimson center, full double, extra.....	6 00
16 * <i>Papaveracea Incarnata</i>	Large, rosy incarnate, golden stamens, beautiful, distinct.....	6 00
17 * <i>Papaveracea Rosea pallida</i>	Large, blush, semi-double.....	4 00
18 * <i>Papaveracea Alba striata</i>	Large white, each petal strongly marked with crimson extending to the center.	8 00
19 * <i>Papaveracea Rosea striata</i>	Rosy, distinct crimson, striped from center	6 00
20 * <i>Princesse</i>	Monstrous, rosy lilac, splendid.....	5 00
21 * <i>Rosea Carminea plena</i>	Rosy Carmine, the strongest growth of all the varieties.....	5 00
22 * <i>Rosea Sanguinea minor</i>	Small, deep rosy crimson, protuberant, fine	5 00
23 * <i>Rosetta</i>	Large, purplish Banksian.....	5 00
24 * <i>Rosalind</i>	Pale rosy lilac, golden stamens, fine.....	5 00
25 * <i>Sylvania</i>	Very large, pale lilac, deep purple center.	5 00

The following are imported varieties. We can supply extra size plants of most of the varieties, at a moderate advance in prices.

26 <i>Alba plena</i>	Belgian white, crimson center.....	1 50
27 <i>Alba variegata</i>	White variegated.....	1 50 to 2 50
28 <i>Amabilis</i>	Lovely flowers.....	1 50 to 2 00
29 <i>Arethusa</i>	White, center bright crimson.....	1 50 to 2 50
30 <i>Atroviolacea</i>	Violet shaded.....	1 50
31 <i>Carmosina plenissima</i>	Incarnate, full, fine.....	3 00
32 <i>Carlili</i>	White, purple center.....	1 50
33 <i>Carnea plena</i>	Fine incarnate.....	1 50
34 <i>Caroline</i>	Caroline.....	2 00
35 <i>Cericea purpurea, vel superba</i>	Purplish Cherry, splendid.....	1 50 to 3 00
36 <i>Chauverii</i>	Very large, blush lilac.....	1 50 to 2 50
37 <i>Compte de Flandres</i>	Rosy lilac.....	2 00
38 <i>Compte de Niepperg</i>	1 50 to 2 50
39 <i>De Bugny</i>	Pearly blush white, purple center.....	1 50
40 <i>Delachet</i>	1 50
41 <i>Dionysii</i>	2 to 3 00

5 Bijou de Chusan.	12 Jewel of Chusan.	19 Salmoea.
6 Colonel Malcolm.	13 Lord Macartney.	20 Sir George Stanton.
7 Confucius.	14 Osiris.	21 Zenobia.

SPLENDID CHINESE HERBACEOUS DOUBLE PÆONIES.

These are varieties of *Paeonia Sinensis*, with the exception of No. 97. They are mostly very fragrant, and form the most brilliant appendage of the garden at their season of flowering, which is in June. They are of the most easy culture, prefer a northern exposure, and will support the severest Canadian winters, the most of the species being natives of Siberia and Chinese Tartary,

and none of them from warm latitudes. We supply blooming roots, and not mere slips, such as are frequently sold; and the prices are much below the usual rates, our stock being by far the largest in the Union.

1 Alba lutescens.....	White, quilled.....	50
2 Albiflora rosea.....	Very large, pale rose, exterior tinged purple..	60
4 Amabilis grandiflora.....	Exterior incarnate, center pale straw, neat...	50

Our Selection.—12 Chinese, very fine double varieties for \$4; 12 fine varieties, more rare, for \$5; 25 fine varieties for \$8; 12 good varieties for \$3.

GENERAL REMARKS.

Persons who may not have our whole set of Catalogues, or those of the latest edition, may, from not seeing some articles enumerated therein, infer that we cannot supply them. We have, therefore, to state, that we obtain all desirable new Fruit and Ornamental Trees, Shrubs and Plants, with the greatest dispatch, and are always among the first to have them for sale, whether announced in our Catalogues or not.

CANDID ADVICE TO AMATEURS.

We make it a point to cultivate the largest stock of all the most estimable varieties, and consequently have larger and finer trees of these kinds. If, therefore, those persons who are desirous of adorning with promptitude their gardens and pleasure grounds, will transmit to us a general list of their wants, and leave the selection in some degree to us, we will send strong, well-grown specimen trees of the respective kinds, such as will be sure to succeed and realize their expectations.

NEW AND SUPERIOR ROSES.

We have obtained from France, Belgium, and England all the new Roses that have been latterly brought to notice, comprising such as have been announced in various European and American periodicals; and we shall announce them in our forthcoming "Catalogue of New Roses." In the mean time we will furnish them to applicants.

SPLENDID BULBOUS FLOWERS, ETC.

The collection is very large, and comprises all the choice varieties of Hyacinths, Tulips, Japan and all other Lilies of 70 species and varieties. Crown Imperials, Fritillaries, Bulbocodium, Jonquils, Polyanthus Narcissus, Double and Single Narcissus, Crocus, Gladiolus, Snowdrop, Snowflake, Iris, Ornithogalum, Scilla, Allium, Ranunculus, Anemone, Cyclamen, Amaryllis, Ixia, Lachenalia, Zephyranthes, Oxalis, Gladiolus, Antholyza, Alstroemeria, Arum, Colchicum, Brunsvigia, Calochortus, Crinum, Dens Canis, Feraria, Haemanthus, Pancratium, Tuberose, &c., &c., besides DAHLIAS, 300 splendid varieties.

Every class will be supplied at very moderate rates, with a large discount to venders. All the details as to prices, descriptions, &c., will be found in Catalogues No. 2 and 9, and in a new one now preparing for publication.

POLYANTHUS, COWSLIP, PRIMROSE AND AURICULA.

We have made this lovely Family of Flowers a speciality, and have concentrated above 150 named varieties from England, France, and Belgium, which we shall publish ere long. In the mean time, we will send a *Written Catalogue* of them to amateurs who may desire it.

HERBACEOUS FLOWERING PLANTS.

Of this class of plants, our collection is so rich and extensive, and the new acquisitions so frequent and numerous, that we shall publish the *additions* in a distinct Catalogue. A very large assortment was comprised in the 42d edition of our Catalogue No. 2, to which amateurs can refer. Our present collection comprises not only all those usually found in other Catalogues, but several hundred rare Species and Varieties which are not in any other American collection, all of which will be supplied at the lowest rates. The assortments of the following are very extensive:—Carnations, Picotees, Phlox, Iris, Chrysanthemum, Verbena, Hemerocallis, Double Hollyhock, Polyanthus, Primrose, Cowslip, Auricula, Daisies, Funkia, Lychnis, Pansies, Hibiscus, Ledum, &c.

SUMMER FLOWERING PLANTS, FOR BEDDING AND BORDERS.

A very extensive and select assortment of the most rare and beautiful species, many of which are entirely new. They are enumerated in Catalogues Nos. 2 and 9.

GREENHOUSE PLANTS.

Assortments of the Camellia Japonica, the collection of which comprises 250 splendid varieties, and of Chinese Azalea, Fuchsia, Geranium, Achimenes, Nerium, Cineraria, Myrtle, Orange, Lemon, Citron, Acacia, Calceolaria, Passiflora, Gloxinia, Gladiolus, Amaryllis, Cactus, Erica, and of all other desirable genera, will be supplied at the lowest rates.

FRUIT AND ORNAMENTAL TREE SEEDS, ETC.

Apple, Pear, Peach, Cherry, Plum, Apricot, Quince, Grape, and other Fruit Seeds, can be supplied in quantities. Also Seeds of Pines, Spruces, and many other Evergreen Trees, and of many Deciduous Trees and Shrubs, and Flowering Plants. Orders for any of these should be given if possible in advance of the season for obtaining them.

AMERICAN SEEDS AND PLANTS FOR EUROPE.

Collections of Seeds of American Forest Trees and Shrubs, and of rare and beautiful American Plants, will be supplied, suitable to send to Europe and other countries.

AGRICULTURAL, GARDEN, AND FLOWER SEEDS.

The Catalogue in this department is very extensive, and we announce to all venders of Seeds that we will supply every variety desired at low wholesale rates, our desire being to present great inducements to those who will make prompt or sure arrangements as to payment. We also supply them put up in a superior manner, in retail parcels, at \$30 to \$40 per 1000 parcels.

STOCKS FOR ENGRAFTING.

Apple, Pear, Plum, Cherry, Mahaleb, Paradise and Doucin Apples, Angers and Paris Quinces, Manetti Rose, Althea, Ash, and all others, will be supplied of suitable age and size, and to any extent desired for nurseries, &c., at very moderate rates.

INDEX.

FRUIT DEPARTMENT.

		Rhubarb.....	29	Sea Kale and Tarragon.....	29

TRANSPLANTING TREES.

BEFORE you remove the Trees intended to be transplanted, or before you unpack any you may have received, you should fully prepare the holes to receive them. But if, from any cause, delay is indispensably necessary in preparing the holes, the trees should be well wet over the roots and branches, and the roots lie then entirely well covered in a trench, till you are ready to commence planting them. It is of great benefit to puddle the roots of Trees before planting, which operation should be performed thus:—Make a hole in the ground four feet in diameter, and two and a half deep, and fill it with water; then pulverize equal quantities of rich mold and old decomposed manure, and throw in, and mix the whole well, so as to form a thick puddle. At the time of planting, place the roots of each tree in the puddle, giving the tree two or three turns until the puddle adheres to every root, then proceed immediately to plant it, the holes having been previously prepared as follows:—Make the holes full large in proportion to the size and spread of the roots of the trees, so that they may be spread out and in no wise cramped. The usual diameter will be three to four feet, and the depth two to three feet. In removing the earth, place the surface soil aside by itself, and cast away the poisonous bottom soil as useless. Mix in with the surface soil about an equal portion of rich mold, and of old, well-rotted manure, in sufficient quantity to replace the inferior soil cast aside, and then pulverize the whole. This done, then spread a portion of the prepared compost at the bottom of the hole, and after having pared any bruised or broken parts of the roots of the tree, place it in position, and at a depth of one inch below that at which it had previously stood. Then, whilst one person holds the tree erect, let another fill in the prepared compost till the roots are covered, treading it down well; then fill up the remainder without treading, as the surface should be loose in order to receive the rains. Make a slight cavity around the tree for the same object, and to receive waterings. When thus planted, water the tree plentifully, and do the same occasionally afterwards, and especially if the weather should prove dry. Evergreen Trees are usually transplanted with balls of earth, and, therefore, the puddling will be dispensed with, unless some of the roots should become bare.

THE SPIRITUAL TELEGRAPH:

A Weekly Periodical, devoted to the Advancement of
SPIRITUAL PHILOSOPHY AND ITS ETERNAL TRUTHS.

CHARLES PARTRIDGE, Editor.

He who shuns investigation imprisons his mind in the region of gloom and darkness.
